Attorneys for Relators and Plaintiffs Katie Brooks and Nannette Wride

UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF IDAHO

UNITED STATES OF AMERICA ex rel.
KATIE BROOKS and NANNETTE WRIDE,

Plaintiffs,

vs.

STEVENS-HENAGER COLLEGE, INC., a
Utah Corporation; CALIFORNIA COLLEGE
SAN DIEGO, INC., a Utah Corporation;
COLLEGEAMERICA DENVER, INC., a
Colorado Corporation; COLLEGEAMERICA
ARIZONA, INC., a Colorado Corporation;
CENTER FOR EXCELLENCE IN HIGHER
EDUCATION, INC., an Indiana Corporation;
CARL BARNEY, an individual; and DOES 1-
500, Inclusive,

Defendants.

CLERK: DO NOT DOCKET

FILED IN CAMERA AND UNDER
SEAL PURSUANT TO
31 U.S.C. § 3730

Case No. 1:13-cv-00009-BLW *SEALED*

FIRST AMENDED COMPLAINT

JURY TRIAL DEMANDED

Relators and Plaintiffs Katie Brooks and Nannette Wride (collectively, “Relators”), on behalf of themselves and the United States of America, complain as follows:

I. INTRODUCTION

1. This action arises from false statements and claims that Defendant Stevens-Henager College (“SHC”), its affiliated schools listed in the caption (collectively “Defendant Schools”), and their owner, Carl Barney (“Barney”), knowingly presented to, or caused to be presented to, the United States and the United States Department of Education in violation of the federal False Claims Act, 31 U.S.C. §§ 3729-33 (“FCA”).

2. Defendant Schools and Barney knowingly presented and/or made, or caused to be presented or made, the false claims and statements at issue in order to participate in the federal student aid programs authorized pursuant to Title IV of the Higher Education Act of 1965, as amended, 20 U.S.C. § 1070 *et seq.* (“Title IV, HEA programs”). Title IV, HEA programs, which are administered by the United States Department of Education (“Department of Education”), provide students with financial aid in the form of, among other things, federal Pell Grants, federal direct student loans, and loans guaranteed by the federal government. Defendant Schools and Barney presented and/or made numerous false claims and statements in order to obtain eligibility to participate in Title IV, HEA programs.

3. On information, Relators believe that from at least January 1, 2002, to the present, Defendant Schools and Barney knowingly submitted, or caused to be submitted, numerous claims for payment to the Department of Education based on these false certifications and statements. Relators further believe that since at least January 1, 2002, to the present, Defendant Schools and Barney have fraudulently induced the Department of Education into granting Defendant Schools eligibility to participate in Title IV, HEA programs when, in fact, Defendant Schools were ineligible to participate in those programs.

4. From approximately January 1, 2002, to the present, Defendant Schools and/or students enrolled in Defendant Schools received over \$660 million (\$660,000,000.00) in federal funds through Title IV, HEA programs. Neither Defendant Schools nor students attending the schools were eligible to receive any of these funds.

5. Because Defendant Schools pay bonuses, commissions, and other forms of incentive compensation to employees in the admissions departments based directly and indirectly on the number of students that these employees enroll (or “start”) in Defendant Schools, Defendant Schools’ compensation system, as actually implemented and practiced, violates the incentive compensation ban applicable to schools that participate in Title IV, HEA programs. Additionally, Defendant Schools’ compensation system for admissions personnel was (and is) not eligible for any of the regulatory safe harbors, which were applicable during certain relevant periods. Instead, the bonuses and commissions that Defendant Schools paid to admissions personnel for recruiting students were exactly the types of incentive compensation barred by the applicable statutes and regulations.

6. Even if Defendant Schools’ compensation system for admissions personnel, as designed, was eligible for a regulatory safe harbor, which it was (and is) not, Defendant Schools’ compensation system, as implemented and practiced, does not comply with the incentive compensation ban or regulatory safe harbors. For example, Defendant Schools’ compensation system paid bonuses and commissions to admissions personnel for recruiting students, which bonuses and commissions were paid on a monthly basis. Therefore, such bonuses and commissions were not a “fixed annual salary or a fixed hourly wage,” and they were “adjusted up or down more than twice during any twelve month period.” 34 C.F.R. § 668.14(b)(22)(ii)(A). Additionally, because the bonuses and commissions were based directly and indirectly on

recruiting students, they were not “based upon students successfully completing their educational programs, or one academic year of their educational programs.” 34 C.F.R. § 668.14(b)(22)(ii)(E). Despite knowing that their compensation system, as implemented, did (and does) not comply with Title IV of the HEA and its regulatory safe harbors, Defendant Schools and Barney falsely represented and certified to the federal government their compliance with Title IV of the HEA and submitted, or caused their students to submit, claims for payment pursuant to Title IV, HEA programs. Accordingly, Defendant Schools’ and Barney’s conduct violates the FCA.

II. JURISDICTION AND VENUE

7. This Court has subject-matter jurisdiction over this action pursuant to 28 U.S.C. §§ 1331, 1345, and 31 U.S.C. §§ 3730, 3732.

8. This Court has personal jurisdiction over Defendants pursuant to 31 U.S.C. § 3732(a), which authorizes nationwide service of process, because Defendants transact business and are found in this District and because acts proscribed by 31 U.S.C. § 3729 occurred in this District.

9. Venue is proper in this District pursuant to 31 U.S.C. § 3732(a), and under 28 U.S.C. §§ 1391(b) and 1395(a), because Defendant Schools maintain and operate three campuses in this District (in Boise, Nampa, and Idaho Falls, Idaho).

III. PARTIES

10. Relator and Plaintiff Katie Brooks is a resident and citizen of the State of Utah. From March 2009 to approximately March 2011, Ms. Brooks was one of the highest performing Admissions Consultants (“AC”) at SHC’s Orem, Utah, campus. In this position, Ms. Brooks became aware of Defendant Schools’ compensation practices for ACs and Financial Aid Officers (“FAOs”), as well as other material information. Defendant Schools employ numerous ACs at

each campus location to recruit new students into their programs. In her position, Ms. Brooks also became aware of certain practices relating to SHC's reporting of student grades and attendance to the Department of Education and its accrediting agency.

11. Ms. Brooks brings this action for violations of the federal FCA on behalf of herself and the United States of America. Ms. Brooks, through her work as an AC, has personal knowledge of the false records, statements, and claims presented to the government by and for the Defendant Schools named herein and of Defendant Schools' fraudulent certification, billing, and auditing practices.

12. Relator and Plaintiff Nannette Wride is a resident and citizen of the State of Utah. From July 2009 to June 2011, SHC's Orem campus employed Ms. Wride as a part-time AC and part-time executive assistant to various manager agents of SHC. In the various positions she held, Ms. Wride became aware of Defendant Schools' compensation practices for ACs and FAOs. Additionally, through her work at Defendant SHC's Orem campus, Ms. Wride learned about certain false statements and representations that Defendant SHC had made, and continued to make, to SHC's accrediting agency. In her position, Ms. Wride also became aware of certain practices relating to SHC's reporting of student grades and attendance to the Department of Education and its accrediting agency.

13. Ms. Wride brings this action for violations of the federal FCA on behalf of herself and the United States of America. Ms. Wride, through her work as an AC and executive assistant, has personal knowledge of the false records, statements, and claims presented to the government and third parties (who, in turn, submitted false records and statements to the government) by and for the Defendant Schools named herein and of Defendant Schools' fraudulent certification, billing, and auditing practices.

14. As required under the FCA, 31 U.S.C. § 3730(b)(2), Relators, contemporaneously with the filing of this Complaint, will provide to the United States Attorney for the District of Idaho and the United States Attorney General a written disclosure of substantially all material evidence and information related to this Complaint.

15. Relators are “original sources” as that term is defined in the FCA. 31 U.S.C. § 3730(e)(4)(B). Relators have independent, material, and first-hand knowledge of the information on which the allegations of fraudulent misconduct are based. Relators voluntarily provided such information to the Office of the Inspector General of the Department of Education and the United States Attorneys for the Districts of Idaho and Utah on October 16, 2012. Additionally, Ms. Wride orally provided information to the Department of Education at various prior times, including in approximately May 2011.

16. The United States of America is named as a plaintiff because funds of the United States of America were (and are) awarded and paid to Defendant Schools in connection with their participation in Title IV, HEA programs, which participation is the result of the false claims alleged in this Complaint.

17. Defendant Schools operate for-profit (or “proprietary”) postsecondary educational schools throughout the western United States. On or about December 31, 2012, all Defendant Schools merged into an Indiana nonprofit corporation by the name of Center For Excellence in Higher Education, Inc. (“CEHE”). On information, Relators believe that CEHE continues to operate the schools under the same trade names as before. On information, Relators believe that Defendant Schools merged into CEHE, at least in part, to evade certain regulatory requirements that apply to for-profit schools but not to not-for-profit schools, particularly the requirement that for-profit schools derive at least ten percent (10%) of their revenues from sources other than

Title IV, HEA program. For the sake of simplicity and ease of reference, this First Amended Complaint will refer to all corporate school entities as “Defendant Schools” except where a specific reference to a specific institution is necessary.

18. A substantial portion of Defendant Schools’ revenues came (and still come) from funds provided through Title IV, HEA programs. Defendant Schools offer associate’s, bachelor’s, and master’s degree programs in various disciplines.

19. Barney is the former sole shareholder of the corporate entities that operated Defendant Schools. Until their merger into CEHE on December 31, 2012, the corporate entities that operated Defendant Schools were all privately owned by Barney. Because Defendant Schools were not public companies, specific information about ownership, control, and management structure is not publicly available. On information, Relators believe that Barney is a resident of Nevada. On information, Relators believe that Barney continues to manage and control Defendant Schools and has an arrangement or relationship with CEHE for which he receives substantial compensation.

20. Until December 31, 2012, Defendant SHC was a Utah corporation with its principal place of business in Murray, Utah. Defendant SHC operated a number of campuses in the intermountain west, including in Idaho (Boise and Nampa) and Utah (Salt Lake City/Murray, Logan, Odgen, Layton, Lehi, Provo/Orem,¹ and St. George). The SHC campuses have been assigned at least the following identification codes by the Office of Postsecondary Education (“OPEID Codes”)²: 00367400, 00367401, 00367403, 00367405, and 00367406. On information,

¹ Although most SHC materials refer to the campus where Relators worked as the “Provo” campus, it was actually located in Orem, Utah.

² The Department of Education and other agencies transact business, collect and report data, and track school performance using OPEID Codes, among other methods.

Relators believe that CEHE continues to operate these campuses under the “Stevens-Henager College” trade name.

21. Additionally, Defendant SHC operated and controlled Independence University (“IU”), an Internet-based, distance-learning institution. On information, Relators believe that IU was, or was treated as, an operating division of SHC. IU has been assigned at least the following OPEID Code: 00367409. On information, Relators believe that CEHE continues to operate IU under the “Independent University” trade name and that IU continues to have a strong affiliation with the campuses operating under the “Stevens-Henager College” trade name.

22. Until December 31, 2012, Defendant California College San Diego, Inc. (“CCSD”), was a Utah corporation with its principal place of business in Salt Lake City, Utah. Defendant CCSD operated three campuses in southern California (San Diego, National City, and San Marcos). The CCSD campuses have been assigned at least the following OPEID Code: 02110800. On information, Relators believe that CEHE continues to operate these campuses under the “California College San Diego” trade name.

23. Until December 31, 2012, Defendant CollegeAmerica Denver, Inc. (“CAD”), was a Colorado corporation with its principal place of business in Denver, Colorado.

24. Until December 31, 2012, Defendant CollegeAmerica Arizona, Inc. (“CAA”), was a Colorado corporation with its principal place of business in Flagstaff, Arizona.

25. Defendants CAD and CAA operate eight campuses in four states: two in Arizona (Flagstaff and Phoenix), four in Colorado (Denver, Colorado Springs, South Colorado Springs, and Fort Collins), one in Wyoming (Cheyenne), and one in Idaho (Idaho Falls).

26. Defendants CAD and CAA hold themselves out to the public as a single operating entity under the name “CollegeAmerica.” For example, CAD and CAA jointly operate a website

that lists all eight campuses and makes no distinction between the two corporate entities. The CollegeAmerica campuses have been assigned at least the following OPEID Codes: 03120300, 03120301, 03120302, 02594300, 02594301, 02594302, and 02594303. On information, Relators believe that CEHE continues to operate these campuses under the “CollegeAmerica” trade name.

27. Until December 31, 2012, Defendants SHC, CCSD, CAD, and CAA advertised and held themselves out to the public as related and affiliated schools. For example, Defendants SHC, CCSD, CAD, and CAA published and used a single unified catalog of courses, which displayed the names and trademarks of each such Defendant School prominently on the cover. Additionally, the homepages of the websites belonging to Defendants SHC, CCSD, CAD, and CAA were virtually identical, except for the change in the name of the school. The homepages of the websites for CCSD and CAD/CAA explained that “[o]nline programs are offered by our affiliated college, Stevens-Henager College Salt Lake City/Murray.” (*See* <http://www.collegeamerica.edu/> (last visited Oct. 31, 2012); <http://www.cc-sd.edu/> (last visited Oct. 31, 2012).)

28. Since the merger of Defendant Schools into CEHE, the connection between the schools has become even more apparent. The websites for each of the schools now states that the schools’ trade names are “a registered mark of Center for Excellence in Higher Education, Inc.”

29. CEHE is an Indiana non-profit corporation with its principal place of business in Salt Lake City/Murray, Utah—at the same address as the former headquarters for both SHC and CCSD. As the corporate successor to Defendant Schools, CEHE is liable for the acts and omissions of Defendant Schools. Insofar as the merger of Defendant Schools into CEHE has caused or resulted in the dissipation of corporate assets with the purpose or effect of defrauding

creditors, including potential judgment creditors, or attempting to make such assets inaccessible to potential judgment creditors, other entities and individuals may also face liability.

30. On information, Relators believe that despite the merger of the separate schools into CEHE, the schools continue to operate more or less as they did prior to the merger. On information, Relators believe that the merger of the schools into CEHE, a non-profit, was intended to evade certain regulations and requirements that apply to for-profit schools but not non-profit schools.

31. Relators are unaware of the true names and capacities of the defendants sued as Does 1 through 500 (collectively with Defendant Schools, “Defendants”). Relators will amend their complaint when the true names and capacities have been ascertained. Each Doe Defendant is responsible in some actionable manner for the events, occurrences, injuries, and damages alleged herein. Certain of the Does consist of the certified public accountants that performed, prepared, and submitted audits and associated reports to the Department of Education between 2002 and the present, which audits and associated reports were required for Defendant Schools to maintain eligibility to participate in Title IV, HEA programs (“Doe Auditor Defendants”).

32. The terms “Defendants,” “Defendant Schools,” and “Doe Auditor Defendants” will refer to the Defendants identified herein acting by and through their managerial employees, and each of them.

33. Managerial employees of the Defendants, in doing the acts and things described in this Complaint, were acting within the course and scope of their respective agencies and/or employment with the Defendants, and each of them, with the knowledge and consent of the Defendants, and each of them, unless otherwise indicated.

34. At all relevant times, each Defendant was the authorized agent of each other Defendant.

IV. FEDERAL FALSE CLAIMS ACT

35. For violations occurring prior to May 20, 2009, the false claims provision of the FCA, at 31 U.S.C. § 3729(a)(1)(1986), provides in pertinent part that a person is liable to the United States government for each instance in which the person “knowingly presents, or causes to be presented, to an officer or employee of the United States Government . . . [a] false or fraudulent claim for payment or approval.”

36. For violations occurring on or after May 20, 2009, the false claims provision of the FCA, at 31 U.S.C. § 3729(a)(1)(A) (2009), as amended by the Fraud Enforcement and Recovery Act of 2009 (“FERA”), provides in pertinent part that any person who “knowingly presents, or causes to be presented, a false or fraudulent claim for payment or approval” shall be liable to the United States Government.

37. The FCA defines the term “claim” to mean

any request or demand, whether under a contract or otherwise, for money or property and whether or not the United States has title to the money or property, that (i) is presented to an officer, employee, or agent of the United States; or (ii) is made to a contractor, grantee, or other recipient, if the money or property is to be spent or used on the Government’s behalf or to advance a Government program or interest, and if the United States Government (I) provides or has provided any portion of the money or property requested or demanded; or (II) will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded

31 U.S.C. § 3729(b)(2)(A) (2009).

38. The false statements provision of the FCA, prior to the FERA amendments, provides that a person is liable to the United States Government for each instance in which the person “knowingly makes, uses, or causes to be made or used, a false record or statement to get a

false or fraudulent claim paid or approved by the Government.” 31 U.S.C. § 3729(a)(2) (1986). As amended by FERA, the false statements provision of the FCA makes liable any person who “knowingly makes, uses, or causes to be made or used, a false record or statement material to a false or fraudulent claim.” 31 U.S.C. § 3729(a)(1)(B) (2009).

39. The FCA, as amended by FERA, defines “material” as “having a natural tendency to influence, or be capable of influencing, the payment or receipt of money or property.” 31 U.S.C. § 3729(b)(4) (2009).

40. The FCA defines the terms “knowing” and “knowingly” to mean that a person, with respect to information: (1) “has actual knowledge of the information”; (2) “acts in deliberate ignorance of the truth or falsity of the information”; or (3) “acts in reckless disregard of the truth or falsity of the information.” 31 U.S.C. § 3729(b) (1986); 31 U.S.C. § 3729(b)(1)(A) (2009). The FCA further provides that “no proof of specific intent to defraud” is required. 31 U.S.C. § 3729(b) (1986); 31 U.S.C. § 3729(b)(1)(B) (2009).

V. TITLE IV OF THE HIGHER EDUCATION ACT OF 1965

A. General Provisions

41. Under Title IV of the Higher Education Act of 1965 (“HEA”), 20 U.S.C. §§ 1070 *et seq.*, Congress established various student loan and grant programs, including but not limited to the Federal Pell Grant Program (“Pell Grant program”), the Federal Family Education Loan Program (“FFELP”),³ and the Federal Direct Loan Program (“FDLP”) (collectively “Title IV funding”) in order to financially assist eligible students in obtaining a post-secondary education.

42. Although the mechanism by which Title IV funding is disbursed to eligible students under the Title IV, HEA programs varies by program, each Title IV, HEA program

³ No new loans were made under FFELP after July 1, 2010.

requires compliance with specific conditions and obligations, and certification of compliance with such conditions and obligations, as a prerequisite to earning and obtaining Title IV funding.

43. In order to become eligible to receive Title IV funding under programs such as Pell Grant program, FFELP, or FDLP, or to have its students receive Title IV funding, a post-secondary educational institution must first enter into a program participation agreement (“PPA”) with the Department of Education. 20 U.S.C. § 1094(a); 34 C.F.R. § 668.14.

44. Each PPA expressly conditions a school’s initial and continuing eligibility to receive funds under Title IV, HEA programs on compliance with specific statutory requirements, including 20 U.S.C. § 1094 and 34 C.F.R. § 668.14.

B. Incentive Compensation Ban

45. Section 487(a)(20) of Title IV of the HEA explicitly requires that in order to be eligible to receive Title IV funding, schools “[w]ill not provide any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments or financial aid to any persons or entities engaged in any student recruiting or admission activities or in making decisions regarding the award of student financial assistance.” 20 U.S.C. § 1094(a)(20) (“Incentive Compensation Ban”). Title IV of the HEA expressly conditions the initial and continuing eligibility of schools to obtain Title IV funding on the requirement that the schools comply with the Incentive Compensation Ban.

46. The Department of Education’s regulations further reiterate that schools must comply with the Incentive Compensation Ban in order to be eligible to receive Title IV funding and that schools must expressly agree to the Incentive Compensation Ban in PPAs. 34 C.F.R. § 668.14(b)(22) (“Incentive Compensation Regulations”).

47. In 2002, the Incentive Compensation Regulations accompanying the Incentive Compensation Ban were amended to clarify that certain types of compensation did not violate

the Incentive Compensation Ban. These regulatory safe harbors were intended to “provide guidance to institutions so they may adopt compensation arrangements that do not run afoul of the incentive compensation prohibition contained in section 487(a)(20) of the HEA.” *Adjustments to Employee Compensation (Section 668.14(b)(22)(ii)(A))*, 67 Fed. Reg. 67054, 67055 (Nov. 1, 2002).

48. Relevant to this Complaint, the 2002 amendments to the Incentive Compensation Regulations included a safe harbor allowing schools to pay “fixed compensation, such as a fixed annual salary or a fixed hourly wage, as long as that compensation is not adjusted up or down more than twice during any twelve month period, and any adjustment is not based solely on the number of students recruited, admitted, enrolled, or awarded financial aid.” 34 C.F.R. §668.14(b)(22)(ii)(A) (“Regulatory Safe Harbor A”).

49. With respect to the Regulatory Safe Harbor A, in the Preamble to the Notice of Proposed Rulemaking for the safe harbor, the Secretary of the Department of Education reminded post-secondary educational institutions that salary adjustments based solely on the number of students recruited, admitted, enrolled, or awarded financial aid do not fall within the safe harbor, that the Regulatory Safe Harbor A was not intended to protect salary adjustments that are formulated to circumvent the statutory prohibition against incentive compensation, and that salary adjustments based on success in securing enrollments remain prohibited. *Program Participation Agreement (Section 668.14)*, 67 Fed. Reg. 51722, 51723 (Aug. 8, 2002).

50. Also relevant to this Complaint, the 2002 amendments to the Incentive Compensation Regulations included a safe harbor permitting to schools to pay “[c]ompensation that is based upon students successfully completing their educational programs, or one academic

year of their educational programs, whichever is shorter.” 34 C.F.R. § 668.14(b)(22)(ii)(E) (“Regulatory Safe Harbor E”).

51. With respect to the Regulatory Safe Harbor E, in the Preamble to the Notice of Proposed Rulemaking for the safe harbor, the Secretary of the Department of Education explained that the Incentive Compensation Ban was intended, in part, “to prevent institutions from enrolling students into a program without regard to their qualifications or likelihood of completing the program,” that “completion of the program or . . . the completion of the first academic year is a reliable indicator that the student was qualified for the program,” and, as a result, the safe harbor allows schools to make payments that are “based upon students’ successful completion of their educational program, or one academic year for a longer program.” *Program Participation Agreement (Section 668.14)*, 67 Fed. Reg. 51722, 51724 (Aug. 8, 2002).

52. In each PPA, a school certifies that “[t]he execution of this Agreement by the Institution and the Secretary is a prerequisite to the Institution’s initial or continued participation in any Title IV, HEA Program.” (See Example of Standard PPA at 1, attached hereto as Exhibit 1.) The PPA further states that a school’s participation in Title IV, HEA programs is “subject to the terms and conditions of this Agreement.” (*Id.* at 2.)

53. The PPA further provides, among other things, that

[b]y entering into this Program Participation Agreement, the Institution agrees that . . . (22) It will not provide, nor contract with any entity that provides, any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments or financial aid to any persons or entities engaged in any student recruiting or admission activities or in making decisions regarding the awarding of student financial assistance.

(*Id.*) This certification is a critical prerequisite for a school’s eligibility to request and receive Title IV funding.

54. Congress enacted the prohibition against paying commissions, bonuses, or other incentive payments based on success in recruiting students because such payments were associated with high loan default rates, which in turn resulted in a significant drain on program funds. When Congress amended the HEA in 1992 to prohibit schools from paying these incentives, it did so based on evidence of serious program abuses, including the payment of incentive compensation to motivate admissions personnel to enroll students without regard to the students' ability to benefit from the education. S. Rep. No. 58, 102d Cong., 1st Sess., at 8 (1991) (“Abuses in Federal Student Aid Programs”)(noting testimony “that contests were held whereby sales representatives earned incentive awards for enrolling the highest number of students for a given period”); H.R. Rep. No. 447, 102d Cong., 2d Sess., at 10, reprinted in 1992 U.S.C.C.A.N. 334, 343 (noting new provisions that “include prohibiting the use of commissioned sales persons and recruiters”). The U.S. Senate committee with oversight responsibility recently acknowledged that systemic fraud and abuse continues unabated among for-profit colleges. S. Comm. on Health, Education, Labor, and Pensions, 112th Cong., For Profit Higher Education: The Failure to Safeguard the Federal Investment and Ensure Student Success (Comm. Print July 30, 2012).

55. In June 2010, the Department of Education proposed to eliminate many of the regulatory safe harbors, including Regulatory Safe Harbor A and Regulatory Safe Harbor E. The Department explained that the elimination of the safe harbors was necessary because “[s]ince [the adoption of the regulatory safe harbors], the Department’s experience demonstrates that unscrupulous actors routinely rely upon these safe harbors to circumvent the intent of section 487(a)(20) of the HEA.” *Incentive Compensation (§ 668.14(b))*, 75 Fed. Reg. 34816, 34817 (June 18, 2010). The Department concluded that “rather than serving to effectuate the goals

intended by Congress through its adoption of section 487(a)(20) of the HEA, the safe harbors have served to obstruct those objectives.” *Id.*

56. In particular, the Department of Education observed that while many schools had adopted compensation practices that complied with the regulatory safe harbors “on paper,” “in practice” those same schools had used compensation practices that directly violated the Incentive Compensation Ban and failed to comply with both the letter and spirit of the safe harbor provisions. *Id.*

57. The Department of Education promulgated final regulations eliminating the regulatory safe harbors, including Regulatory Safe Harbor A and Regulatory Safe Harbor E, on October 29, 2010, effective July 1, 2011. *Program Integrity Issues*, 75 Fed. Reg. 66832, 66832 (October 29, 2010); 34 C.F.R. § 668.14(b)(22) (2011).

C. Audit Requirement

58. In order to maintain its eligibility to receive Title IV funding, each year a school participates in any Title IV, HEA program, it also must provide the Department of Education with an annual compliance audit of its administration of Title IV, HEA programs, as well as an audit of the school’s general purpose financial statements, prepared by independent auditors. 20 U.S.C. § 1094(c)(1)(A); 34 C.F.R. §§ 668.23(a)(2), (a)(4). For-profit educational institutions, like Defendant Schools, must conduct their annual financial statements and compliance audits in accordance with the Department of Education Office of Inspector General’s Audit Guide.

59. The Department of Education uses the results of the compliance and financial statements audits in part to determine whether schools receiving Title IV funding are adhering to applicable requirements for Title IV, HEA programs, including the Incentive Compensation Ban. As part of the annual audits, Defendant Schools are required to certify, in the form of written “Required Management Assertions,” that, among other things, they are complying with the

requirements for eligibility to participate in Title IV, HEA programs, including the Incentive Compensation Ban. (See Department of Education Audit Guide (“Audit Guide”) at II-3, attached hereto as Exhibit 2.) Specifically, Defendant Schools must certify in their “Required Management Assertions” regarding “Institutional Eligibility and Participation” that they have “[n]ot paid to any persons or entities any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments, financial aid to students, or student retention [34 C.F.R. § 668.14(b)(22)].” (*Id.* at p. II-4.)

D. Accreditation Requirement

60. As a condition to be eligible to participate in Title IV, HEA programs and to earn and receive Title IV funding, schools must also “meet the requirements established by . . . accrediting agencies or associations.” 20 U.S.C. § 1094(a)(21) (“Accreditation Requirement”).

61. The accreditation process ensures that before a school receives Title IV funding, the school has effective educational programs and has met high standards of quality. The accrediting agencies, by rigorously investigating the schools and their educational programs and determining whether they meet the Department of Education’s and the agencies’ standards, help guarantee that the federal government, the Department of Education, and taxpayers are receiving a valuable educational product in exchange for the Title IV funding.

62. The PPAs that all schools must sign in order to participate in Title IV, HEA programs, and to be eligible to receive Title IV funding, explicitly provide that the schools “will meet the requirements established pursuant to part H of Title IV of the HEA by . . . nationally recognized accrediting agencies.” 34 C.F.R. § 668.14(b)(23).

63. “[F]or purposes of student assistance programs,” the HEA defines “proprietary institution of higher education,” which is the category to which Defendant Schools belong, as a

school that, among other things, “is accredited by a nationally recognized accrediting agency or association recognized by the Secretary.” 20 U.S.C. § 1002(b)(1).

64. In order to be recognized by the Secretary of Education as an accrediting agency, an agency must establish “sufficiently rigorous” “standards for accreditation” that include provisions for, among other areas, “faculty.” 34 C.F.R. § 602.16(a).

65. Before accrediting a school or program, an accrediting agency must “[c]onduct[] at least one on-site review of the institution or program during which it obtains sufficient information to determine if the institution or program complies with the agency’s standards.” 34 C.F.R. § 602.17(c).

66. An accrediting agency must “provide written notice of its accrediting decisions to the Secretary,” including about “[a] decision to renew an institution’s or program’s accreditation.” 34 C.F.R. § 602.26.

E. Attendance-Taking and Refund Requirement

67. Schools participating in Title IV, HEA programs are required to carefully and accurately track and report student attendance for a number of reasons.

68. If a student enrolls at a school but fails to attend class, the school is obligated to refund any Title IV funding received for that student to the Department of Education within a specified period of time. 34 C.F.R. § 668.21(a), (c); 20 U.S.C. § 1091b.

69. Similarly, if a student enrolls and attends some classes but then subsequently stops attending classes, the school is obligated to calculate the amount of Title IV funding the student earned and to refund any Title IV funding the school received in excess of the amount earned to the Department of Education. 34 C.F.R. § 668.22(a)(1) (Schools are obligated to “determine the amount of title IV grant or loan assistance that the student earned as of the student’s withdrawal date.”); 34 C.F.R. § 668.22(a)(4) (The “difference between these amounts

must be returned to the title IV programs.”); *see also* 20 U.S.C. § 1091b; 34 C.F.R. §§ 668.22(b), (g), (i).

70. Under the applicable the regulations, “a student is considered to have withdrawn from a payment period or period of enrollment” if, in the case of a program measured in credit hours (as are Defendant Schools’ programs), “the student does not complete all the days in the payment period or period of enrollment that the student was scheduled to complete.” 34 C.F.R. § 668.22(a)(2)(i)(A).

71. The applicable regulations also dictate exactly how schools must determine a student’s withdrawal date. For “an institution that is required to take attendance,” “the student’s withdrawal date is the last date of academic attendance as determined by the institution from its attendance records.” 34 C.F.R. § 668.22(b).

72. A school is “required to take attendance if” either an “outside entity (such as the institution’s accrediting agency or a State agency) has a requirement that the institution take attendance” or “[t]he institution itself has a requirement that its instructors take attendance.” 34 C.F.R. § 668.22(b)(3)(i)(A), (B).

73. As discussed in more detail below, the Accrediting Commission of Career Schools and Colleges (“ACCSC”) is Defendant Schools’ accrediting agency. (A copy of ACCSC’s Standards of Accreditation is attached hereto as Exhibit 3.)

74. ACCSC’s accrediting standards require accredited schools, including Defendant Schools, to create, publish, and enforce attendance policies that “must promote sufficient levels of student attendance such that the required knowledge, skills, and competencies can be reasonably achieved.” (*See generally* ACCSC “Standards of Accreditation,” Ch.2, Sec. VII.)

75. Indeed, Defendant Schools' written policies require the taking of attendance. (*See, e.g.,* Defendant Schools' Combined Course Catalog 2012 at 78.)

76. When they enter into PPAs with the Department of Education, all schools must certify they are complying and will continue to comply with the statutes and regulations relating to attendance-taking and refund calculations.

77. Because a student's withdrawal date is determined from the school's attendance records and because the determination of the withdrawal date directly affects how much money a school must refund to the Department of Education following a withdrawal, it is important that the school accurately record and report student attendance so that the correct refund amount is calculated. However, because schools may retain more money if the withdrawal date is postponed, schools have a strong financial incentive to misreport the attendance of students who withdraw.

F. Academic Progress Requirements

78. Schools participating in Title IV, HEA programs must also create and enforce reasonable standards of academic performance.

79. Under applicable regulations, "[a]n institution must establish a reasonable satisfactory academic progress policy for determining whether an otherwise eligible student is making satisfactory academic progress in his or her educational program and may receive assistance under the title IV, HEA programs." 34 C.F.R. §§ 668.34(a); *see also* 20 U.S.C. § 1091(a)(2) (requiring students to make satisfactory progress); 20 U.S.C. § 1091(c) (defining satisfactory academic progress); 34 C.F.R. § 668.14(b)(24); 34 C.F.R. § 668.16(e)(2)(i).

80. Such a policy must include "the grade point average (GPA) that a student must achieve at each evaluation" in order to remain eligible to receive Title IV funds. 34 C.F.R. §§ 668.34(a)(4)(i).

81. Furthermore, ACCSC must require all schools that it accredits establish standards regarding “[s]uccess with respect to student achievement,” 34 C.F.R. § 602.16(a)(1)(i); 20 U.S.C. § 1099b(a)(5), and Defendant Schools must follow those standards to be eligible to receive Title IV funds, 34 C.F.R. § 668.14(b)(23).

82. Indeed, the ACCSC’s Standards of Accreditation include such requirements. (*See generally* ACCSC “Standards of Accreditation,” Ch. 2, Sec. VII, Exhibit 3.)

83. When they enter into PPAs with the Department of Education, all schools must certify they are complying and will continue to comply with the statutes and regulations relating to academic performance.

84. As with the attendance-tracking requirement, it important for schools to establish and enforce reasonable academic performance standards and to actually and genuinely grade student performance based on reasonable standards. However, since schools lose revenue when a student’s Title IV funding eligibility is suspended due to poor grades, schools have a strong financial incentive to misrepresent students’ academic performance.

G. Claims for Payment under Title IV, HEA Programs

85. After a school becomes eligible to receive Title IV funding by entering into a PPA, claims for payment of those funds can be made in various ways. Under the Pell Grant program and FDLP, for example, students submit requests for funding directly to the Department of Education, or to the Department of Education with the assistance of schools. Under FFELP, students and schools jointly submitted requests to private lenders for loans that were guaranteed by state agencies that were, in turn, insured by the Department of Education, which paid in the event of a default.

86. With respect to all Title IV, HEA programs, the disbursement of Title IV funding depends on a school's statements and certifications of eligibility that are necessary for requests for payment to be considered.

87. For all Title IV, HEA programs, students who are interested in receiving federal student aid must complete a "Free Application for Federal Student Aid," known as a "FAFSA."

Title IV Grant Programs

88. Under the Pell Grant program, which provides federal funds to assist postsecondary school students with demonstrated financial need, 20 U.S.C. § 1070a; 34 C.F.R. § 690.1, the student initiates the process by submitting a FAFSA to the Department of Education to have her expected family contribution ("EFC") calculated in order to receive an accurate amount of Pell Grant program funds. 34 C.F.R. § 690.12(a). The student either sends the FAFSA directly to the Department of Education or provides it to a school for the school to transmit it to the Department of Education on the student's behalf. 34 C.F.R. § 690.12(b).

89. The Department of Education sends the student's application information and EFC to the student on a Student Aid Report ("SAR") and sends each school the student has designated an Institutional Student Information Record ("ISIR") for that student. 34 C.F.R. § 690.13.

90. The school uses the above-described information, including the EFC, to calculate the student's eligibility for all aid and to assemble a "financial aid award package" for the student borrower. The financial aid package may include Pell Grants, FDLP loans, or Campus-Based Aid (which in turn includes Federal Supplemental Educational Opportunity Grants, Federal Work-Study, and Federal Perkins Loans), as well as other scholarships or aid for which the student may be eligible.

91. The student can accept all or part of the financial aid award package.

92. If the student accepts a Pell Grant, an FDLP loan (for which the Department of Education is both lender and guarantor), or both a Pell Grant and a FDLP loan, the school creates an electronic “origination” record that the school submits to a Department of Education computerized database called the Common Origination and Disbursement (“COD”) system. The origination record includes student demographic data, the award or payment period, the award amount, and disbursement dates and amounts. The COD database, in turn, links the information in the origination record to another Department of Education database, called CPS, which compares the information in the origination record to the information on the student’s SAR and ISIR.

93. Provided that the information submitted by the school is consistent with the information possessed by the Department of Education, the Department of Education makes funds available for the school to electronically draw down from a computerized system known as “G5.”

94. Schools must electronically certify in G5 prior to drawing down the funds that “by processing this payment request . . . the funds are being expended within three business days of receipt for the purpose and condition[s] of the [Program Participation] agreement.” (*See* Example of G5 Certification, attached hereto as Exhibit 4.)

95. In addition to the Pell Grants themselves, the Department of Education also pays to the school an annual administrative cost allowance of \$5.00 for each student who receives a Pell Grant, to be used to pay the costs of administering the Pell Grant and other Title IV, HEA federal student aid programs. 20 U.S.C. § 1096; 34 C.F.R. § 690.10.

FDLP and FFELP Loan Programs

96. The FDLP, through which the Department of Education makes loans directly to eligible students and parents, “enables an eligible student or parent to obtain a loan to pay for the student’s cost of attendance at [an eligible] school.” 34 C.F.R. § 685.101(a)(1).

97. Under the FFELP, which included subsidized and unsubsidized Stafford Loans, private “lenders use their own funds to make loans to enable a student or his or her parents to pay the costs of the student’s attendance at postsecondary schools.” 34 C.F.R. § 682.100(a). “[A] guaranty agency guarantees [the private] lender against losses due to default by the borrower on a FFEL loan,” and “the guaranty agency is reimbursed by the [Department of Education] for all or part of the amount of default claims it pays to lenders.” 34 C.F.R. § 682.100(b)(1). In this way, the government is ultimately called upon to satisfy claims for payment.

98. No new loans were made under FFELP after July 1, 2010. *See* Health Care and Education Reconciliation Act of 2010 (P.L. 111-152).

99. Like the Pell Grant program, students seeking to obtain a FDLP or FFELP loan begin by completing and submitting a FAFSA. 34 C.F.R. § 685.201(a); 34 C.F.R. § 682.102(a).

100. In order to participate in the FDLP and FFELP, as opposed to a grant program, a student also completes a Master Promissory Note (“MPN”) and submits the MPN to the educational institution. 34 C.F.R. § 685.201; 34 C.F.R. § 682.102.

101. Parents may also borrow money through the FDLP and FFELP, in the form of a Parent PLUS loan, to help pay tuition and other related costs of education for their children. 34 C.F.R. § 685.200(c); 34 C.F.R. § 682.102(c). A parent borrower commences the loan process by completing and submitting a Direct PLUS MPN for a Parent Direct PLUS loan, 34 C.F.R. § 685.201(b), or an application for a PLUS loan under FFELP, 34 C.F.R. § 682.102(c).

102. For student loans, schools participating in the FDLP must at a minimum create a loan origination record and ensure that the loan is supported by a completed MPN. 34 C.F.R. § 685.201(a)(2)(i), (ii). For parent direct loans, a participating school must complete and submit its portion of the PLUS MPN. 34 C.F.R. § 685.201(b)(3).

103. A school participating in the FDLP or FFELP must determine and certify that the student is eligible to receive the loan and must provide information regarding student eligibility to the Department of Education. 34 C.F.R. § 685.301(a)(1), (2); 34 C.F.R. § 682.102(a); 34 C.F.R. § 682.603(a). Among other requirements, to be eligible to receive proceeds from a FDLP or FFELP loan, a student must be enrolled, or accepted for enrollment, at a school eligible to receive Title IV funding. 34 C.F.R. § 685.301(a)(2)(i); 34 C.F.R. § 685.200(a)(1)(ii); 34 C.F.R. § 668.32(a)(1)(i); 34 C.F.R. § 682.201(a); 34 C.F.R. § 682.603(a).

104. As described above, for a school to be eligible to participate in Title IV, HEA programs, thereby making students attending the school eligible for FDLP and FFELP loans, a school must comply with the Incentive Compensation Ban. By certifying that any student is eligible to receive a FDLP or FFELP loan, the school is certifying its own eligibility to participate in the programs, including its compliance with the Incentive Compensation Ban.

105. Additionally, for a student to be eligible to receive a FDLP or FFELP loan, the school, as well as the specific program of study, must be accredited by the appropriate accrediting agency. 20 U.S.C. § 1094(a)(21); Department of Education, Direct Loans School Guide, at 1-3, *available at* <http://www.direct.ed.gov/pubs/schoolguide.html>.

106. As described above, a school participating in the FDLP also determines the amount of each type of FDLP loan (subsidized or unsubsidized), as well as other types of financial aid, that the student is eligible to receive based on information provided by the student

in the FAFSA and from other available sources. 34 C.F.R. §§ 685.301(4), (5). The school submits this information to the COD system.

107. Schools must verify that a student remains eligible to receive FDLP and FFELP loan proceeds at the time of disbursement. Direct Loans School Guide at 5-66; Department of Education, Federal Student Aid Handbook at 3-135 (2010-11).

108. Schools receive the proceeds of FDLP loans for disbursement through the G5 system. As described above, schools must electronically certify in G5 prior to drawing down the funds that “by processing this payment request . . . the funds are being expended within three business days of receipt for the purpose and condition[s] of the [Program Participation] agreement.” (G5 Certification, Exhibit 4 hereto.)

109. Under FFELP, the school submits the MPN to the lender. Upon approval by the lender, the lender obtains a loan guarantee from a guarantee agency. 34 C.F.R. § 682.102. The loan is made in reliance upon the accuracy of the information provided by the school.

110. The lender transfers the FFELP funds directly into the school’s account. Upon receiving the FFELP funds, the school credits a student’s account at the school for education-related expenses, such as tuition, fees, books, and supplies.

111. For subsidized Stafford loans, the government pays the interest on the student’s behalf during the time the student is enrolled in school on at least a half-time basis, and during the student’s grace period before repayment commences. 34 C.F.R. § 682.102(d)(2).

112. In the event of default on a FFELP loan, the Department of Education pays to the guarantee agency all or part of the unpaid principal and accrued interest, as well as a variety of administrative costs. 34 C.F.R. § 682.404.

VI. FACTUAL ALLEGATIONS

113. Defendant Schools knowingly made false statements, certifications, and claims regarding compliance with the Incentive Compensation Ban in order to become and remain eligible to receive Title IV funding. Defendant Schools' statements were false when made, and caused the Department of Education to pay various claims under Title IV, HEA programs that Defendant Schools were not eligible to receive.

114. SHC knowingly made false statements, certifications, and claims regarding compliance with the Accreditation Requirement in order to become and remain eligible to receive Title IV funding. SHC's statements were false when made, and caused the Department of Education to pay various claims under Title IV, HEA programs that SHC was not eligible to receive. Additionally, SHC knowingly made false statements and certifications to its accrediting agency in order to induce and cause the accrediting agency to accredit SHC even though SHC did (and does) not comply with the relevant accrediting standards.

A. Defendant Schools' Submission of Program Participation Agreements to the Department of Education.

115. Defendant Schools sign and submit PPAs to the Department of Education in order to become eligible to participate in Title IV, HEA programs. On information and belief, all Defendant Schools are currently operating under approved PPAs and have been since at least January 1, 2002.

116. In each PPA, each Defendant School certifies that "[i]t will comply with all statutory provisions of or applicable to Title IV of the HEA, all applicable regulatory provisions prescribed under that statutory authority, and all applicable special arrangements, agreements, and limitations entered into under the authority of statutes applicable to Title IV of the HEA."

117. In each PPA, each Defendant School further certifies that “[i]t will not provide, nor contract with any entity that provides, any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments or financial aid to any persons or entities engaged in any student recruiting or admission activities or in making decisions regarding the awarding of student financial assistance.”

118. In its PPAs, SHC also certifies that “[i]t will meet the requirements established” by a “nationally recognized accrediting agenc[y].”

119. In addition to the certifications they make in the PPAs, Defendant Schools also make, or cause to be made, additional certifications as part of their annual compliance audits and as part of the student financial aid process, including but not limited to Required Management Assertions, G5 Certifications, Master Promissory Notes, and their accompanying school certifications.

120. Defendant Schools submitted and continue to submit a variety of claims to the government for Title IV funding that they know to be false based upon their non-compliance with the Incentive Compensation Ban.

121. SHC submitted and continues to submit a variety of claims to the government for Title IV funding that it knows to be false based upon its submission of false information and certifications to its accrediting agency for the purpose of obtaining an accreditation for which it is not eligible.

B. Title IV Funding Received by Defendant Schools.

122. According to information available from the Department of Education, Defendant Schools have received more than \$660 million in Title IV funding since the 2002-2003 academic award year. This figure includes amounts received under FDLP, FFELP, and Pell Grant program, as well as smaller amounts received pursuant to Academic Competitiveness and

National SMART Grant programs and campus-based financial aid (Federal Work Study, Perkins Loans, Federal Supplemental Educational Opportunity Grants).

123. For example, during the 2009-2010 award year, which ran from July 1, 2009 to June 30, 2010, Defendant Schools received over \$127 million in Title IV funding.

124. During the 2010-2011 award year, Defendant Schools received over \$139 million in Title IV funding.

125. Defendant Schools receive a large portion of their total revenues from Title IV, HEA programs. For example, in 2009-2010, the percentage of Defendant Schools' total revenues derived from Title IV, HEA programs were as follows: Defendant SHC: 77%; Defendant CAA: 85.5%; Defendant CAD: 82.8%; and Defendant CCSD: 79.3%. *See* Department of Education, Proprietary School 90/10 Revenue Percentages from Financial Statements with Fiscal Year Ending Dates Between 7/1/2009 and 6/30/2010, *available at* <http://studentaid.ed.gov/about/data-center/school/proprietary>.

126. In 2010-2011, the percentage of Defendant Schools' total revenues derived from Title IV, HEA programs were as follows: Defendant SHC: 80%; Defendant CAA: 85.1%; Defendant CAD: 81.4%; and Defendant CCSD: 69.3%. *See* Department of Education, Proprietary School 90/10 Revenue Percentages from Financial Statements with Fiscal Year Ending Dates Between 7/1/2010 and 6/30/2011, *available at* <http://studentaid.ed.gov/about/data-center/school/proprietary>.

C. Defendant Schools' Violations of the Incentive Compensation Ban.

127. Throughout their employment with SHC, SHC paid Ms. Brooks and Ms. Wride incentive compensation that violated the Incentive Compensation Ban. On information and belief, SHC and the other Defendant Schools have paid incentive compensation to ACs that violates the Incentive Compensation Ban since at least July 1, 2002, and SHC and the other

Defendant Schools have continued to pay incentive compensation to ACs that violates the Incentive Compensation Ban up to the present time.

128. Defendant Schools deliberately cultivated a corporate culture that prizes and rewards enrollment of students above all else. This “boiler room” style sales culture has made recruiting and enrolling students the sole focus of ACs and others involved in the recruitment and enrollment processes, including FAOs.

129. Through their compensation system and compensation practices, the representations and certifications they make to the federal government in their PPAs, in connection with annual compliance audits, and in other documents, Defendant Schools knowingly violated and continue to violate Title IV of the HEA’s Incentive Compensation Ban, as well as its accompanying and implementing regulations.

Admissions Consultants

130. An AC’s primary objective at Defendant Schools is to “**enroll students.**” (Defendant School’s Admissions Consultant Manual at 21 (emphasis in original) (“Manual”), attached hereto as Exhibit 5.) (Defendant Schools provide a written policy manual to their ACs on an annual basis. The copy of the Manual in Relators’ possession was provided to an AC on or about September 2010 and states on the title page: “Copyright 2006, 2007, and 2008 by Carl Barney.” Prior versions of the Manual were similar in form and content to the version attached as Exhibit 5 to this Complaint. At the bottom of the title page of the Manual, the following schools are identified: CollegeAmerica, CCSD [California College San Diego], Stevens-Henager College, and Independence University.)

131. ACs enroll students by developing leads through various events, promotions, and networking activities and through referrals generated by Defendant Schools’ call center and marketing campaigns. ACs meet with these leads and referrals, usually in person, at Defendant

Schools' campuses and attempt to persuade them to enroll as students in Defendant Schools' programs. According to Defendant Schools, the sole "purpose" of ACs is to "motivate, enroll, and start students." (*Id.* at 22.) The Defendant Schools' joint Manual reminds ACs that "[t]he AC's job is to enroll every person they possibly can" and that "no salary increases occur unless Admissions enrolls more students." (*Id.* at 15.)

132. ACs are the primary contact that prospective students have with Defendant Schools during the recruitment process. The recruiting process often involves hours of personal contact between the AC and prospective student. Typically, ACs will accompany potential recruits to meetings with FAOs, where financial aid options are discussed.

133. Defendant Schools provide regular training to the ACs in various sales techniques. For example, ACs are instructed to tell prospective students that "[f]or their tuition [they] get in return a **quality job** with much **more money** to help them pay for their hopes and dreams," and that Defendant Schools "do this in half the time of many other colleges and universities." (*Id.* at 20 (emphasis in original).)

Defendant Schools' Written Compensation Policy

134. Defendant Schools issued frequent written statements concerning their compensation policies, including for ACs. The revisions often related to the portions of the Manual covering AC compensation. Many of these written policies were contradictory and inconsistent. As will become apparent, Relators are informed and believe that Defendant Schools' actual compensation practices deviated from their written policies, that the written policies were issued merely to satisfy regulators, and that the deviations from the written policies further violated Title IV regulations and requirements.

135. In addition to Manuals, Defendant Schools issued various types of “directives” to their employees, including directives to their admissions department staff. These communications took the form of “Procedure Directives” and “Information Letters.”

136. In one such Procedure Directive, dated both November 15, 2007, and November 17, 2008, that Defendant SHC provided to Ms. Brooks, Defendant Schools appeared to set down new policies for “Admissions Consultant Compensation.” (Procedure Directive at 2, attached hereto as Exhibit 6.)

137. The Procedure Directive was issued by Carl Barney, as “Chairman,” to Admissions Consultants, Directors of Admission (DoAs), and Campus Directors.

138. The Procedure Directive discusses the Defendant School’s “compensation plan based upon students who complete 36 credits and are thus likely to graduate” and makes explicit reference to Regulatory Safe Harbor E. (Procedure Directive 1-2.)

139. The Procedure Directive explains that each student who completes 36 credits entitles the AC who enrolled that student to a “Completion Certificate” if, and only if, the completing “student ha[s] *a value at completion of 36 credits* as show in Appendix 1.” (Procedure Directive 2 (emphasis in original).)

140. “Appendix One” to the Procedure Directive contains a chart showing “Admission Consultant Potential Compensation.” The chart provides the “value at completion” referenced previously.

141. The chart contains a range of money values—from \$100 up to \$600.

142. The first column in the chart is titled “Packaged Starts.” The lowest value shown in the row is 5 packaged starts—there are no values for anything less than 5 starts.

143. The top row of the chart lists “Intconversion%.” The lowest value in the row is “>33%”—there are no values for anything less than 33%.

144. Notes to the chart explain that “Intconversion%” is calculated by “[t]otal[ing] the last three modules’ starts and interviews” and dividing the total number of starts by the total number of interviews. The notes explain that “[w]alk-ins do count as interviews and they must be counted.”

145. According to the chart in Appendix One of the Procedure Directive, which is consistent with actual practice (as described below), before an AC could receive a bonus for a completing student, the AC had to (1) start *at least* 5 students per module, and (2) convince at least one out of every three potential students he or she met with to enroll in the school. Based on the compensation systems set forth in the Procedure Directive, if an AC failed to meet either of these two enrollment-related requirements, the AC was ineligible to receive a bonus, regardless of how many students the AC was responsible for starting who completed 36 credit hours.

146. At the other end of the scale, Appendix One provides great incentives for ACs to start more students and convince greater numbers of potential students to enroll. An AC that has an interview-to-start rate greater than 50% is eligible to receive \$600 per completing student. An AC with 20 starts and an interview-to-start rate of 50% would receive a total of \$12,000.

147. Appendix One of the Procedure Directive also states that for “each start from personally developed interviews, the completion certificate is valued at an additional \$500.”

148. The Procedure Directive contains an Appendix Two, which appears to set forth AC compensation for personally developed leads. (Appendix Two is not referenced anywhere in the Procedure Directive.) Appendix Two contains a chart that is identical to the chart in Appendix One, except that all of the values are higher. Under that chart, an AC must still first (1)

start at least 5 students, and (2) achieve an interview-to-start rate of 33% to be eligible for any bonus, regardless of the number of students they started who completed 36 credit hours.

149. Under that chart, the values based on the number of starts and interview-to-start rate ranged from \$500 to \$3,000 per student (or more).

150. The Procedure Directive acknowledges that the incentive compensation plan is designed to ensure that ACs “contribute to admissions goals.” (Procedure Directive at 1.)

151. The Defendant Schools’ joint Manual also ostensibly sets forth the schools’ compensation policies and plan for ACs. (*See* Manual at 21-37, Exhibit 5.) Although much of the text of Procedure Directive is also set forth in the Manual, the two policies are very different.

152. Like the Procedure Directive, the Manual acknowledges that the payment of incentive compensation based directly or indirectly on starts is prohibited under applicable regulations and accrediting standards. (Manual at 33.) These acknowledgements demonstrate that Defendant Schools knew (and know) that compensation practices resulting in the payment of incentive compensation based directly or indirectly on enrolling (or starting) students was strictly prohibited.

153. While Defendant Schools’ written compensation plan appears to implicate several regulatory safe harbors, the precise terms of the compensation plan are less than clear. It appears that Defendant Schools attempted to exploit this ambiguity and vagueness by implementing and using a different compensation system than what is set forth in the Manual.

154. As written, the compensation plan set forth in the Manual appears to confuse and muddle several of the regulatory safe harbors for the Incentive Compensation Ban, even though each of the regulatory safe harbors has separate and distinct provisions and requirements. (*See, e.g.,* Manual at 33 (combining the elements of several regulatory safe harbors under the same

numbered item).) Although the Manual purports to refer ACs to the Manual’s appendices for more information about the “safe harbors,” no additional information about the safe harbors is contained in the appendices. (*Id.*)

155. The Manual states that that “ACs will receive a salary commensurate with their experience (Appendix 1 – see attached)” and that the compensation “plan will not be adjusted more than twice annually” (Manual at 25; *see also* Procedure Directive 1), in apparent reference to Regulatory Safe Harbor A, which required, among other things, the “payment of fixed compensation, such as a fixed annual salary . . . , as long as that compensation [wa]s not adjusted up or down more than twice during any twelve month period,” 34 C.F.R. § 668.14(b)(22)(ii)(A). (Notably, however, Appendix 1 does not reveal salary information but only shows example of “Additional Compensation” that ACs can earn under Defendant Schools’ incentive bonus program.)

156. The Manual also describes an incentive bonus program, explaining that the “Department of Education allows colleges to compensate ACs for students who successfully complete an academic year.” (Manual at 25.) The Manual then purports to set forth Regulatory Safe Harbor E in its entirety, although the quotation contains several errors. (*Id.*)

157. The Manual then explains Defendant Schools’ incentive bonus program: “the college has developed a compensation plan based upon students who complete 36 credits” (“Completion Bonus”). (Manual at 25.)

158. The Completion Bonus plan, like the plan stated in the Procedure Directive, provides that

ACs will be issued Completion Certificates (CCs – see attached) for each student having *a value at completion of 36 credits* as shown in Appendix 1. When a student named on a CC completes,

the AC may redeem the CC. . . . **Compensation is paid only for students who successfully complete 36 credits.**

(Manual at 25 (emphasis in original).)

159. The Manual makes clear that the Completion Bonuses associated with the “[C]ompletion [C]ertificates are not part of regular compensation.” (Manual at 28 (emphasis in original); *see also* Procedure Directive at 6.)

160. The Manual vaguely explains that the Completion Certificates “must be earned by meeting or exceeding each of the requirements outlined in the program” and that if the ACs “fail to meet each of the performance criteria, . . . all Complete Certificates will become null and void and of no value.” (Manual at 28.)

161. The only “requirements” and “performance criteria” relating to the Completion Bonuses contained in the Manual provide that “ACs must be employed by the college at the time a student completes 36 credits” and “must have provided support functions such as corresponding on a regular basis with the student after enrollment, checking on the student’s progress, and helping students with any question they might have during the duration of the program.” (Manual at 25; *see also* Procedure Directive at 2.) The Manual also states that ACs must (1) complete “Interview Surveys” and (2) accurately enter information relating to inquiries, referrals, interviews, and enrollments in Defendant Schools’ computer system in order to earn a Completion Certificate. (Manual at 29-30.)

162. No other requirements for earning or redeeming Completion Certificates are stated in the Manual.

163. The Manual vaguely explains Defendant Schools’ system for assigning a monetary value for each of the bonus Completion Certificates. (Manual at 30.)

164. The written system for assigning a monetary value to the Completion Certificates bases the assigned value directly on the number of students an AC has succeeded in starting (or enrolling) at Defendant Schools. (Manual at 30.) Specifically, the Manual contains a chart that assigns a “Completion Value” that is based on each AC’s “Avg. Starts.” (Manual at 30.)⁴ The notes to the chart explain that the relevant “Average” is “the **last 3 modules**’ performance” in terms of starts. (*Id.* (emphasis in original).) Thus, an AC with a three-module average of five (5) starts per module⁵ would receive \$50 for each Completion Certificate associated with a student enrolled in a bachelor’s degree program, while an AC with a three-module average of eighteen (18) starts would receive \$700 for each Completion Certificate. If an AC failed to achieve a minimum three-module average of five (5) starts per module, the Completion Certificate was worth nothing. Thus, the Manual itself shows that the “completion” bonus would not be awarded unless an AC achieved start-related quotas that have nothing to do with the completion of an academic year of study by a student. Defendant Schools’ written policy therefore attempted to hide impermissible incentive bonus compensation based on enrollments within an ostensibly permissible compensation system relating to students’ completion of one academic year of study.

165. If Defendant Schools actually followed the written policies stated in the Procedure Directive or in the Manual, they would have violated the Incentive Compensation Ban because they would have paid incentive compensation based directly on success in securing enrollments. Although Defendant Schools’ written policy suggested that such bonus compensation related to students’ completion of one academic year of study, in reality the

⁴ Note the significant differences between the chart contained in the Manual and the charts contained in the Procedure Directive.

⁵ Defendant Schools use their academic “module” as the relevant time period for measuring AC performance. Each module is approximately one month long.

bonuses were tied directly to enrollments—the bonuses were only paid if ACs achieved certain start quotas. Defendant Schools’ Completion Bonus plans merely used students who completed an academic year of study as a convenient way to hide bonuses tied to the enrollment of *other* students.

166. As explained below, Defendant SHC did not actually pay compensation pursuant to its written compensation plans. On information, Relators believe and allege that none of the other Defendant Schools actually followed the written compensation plan either.

167. On information, Relators believe and allege that Defendant Schools’ written compensation plan was (and is) drafted to deceive the Department of Education and Defendant Schools’ accrediting agency concerning Defendant Schools’ compensation practices and to provide cover for Defendant Schools’ actual compensation practices, which more obviously violate the Incentive Compensation Ban.

Ms. Brooks’ Experience with Incentive Compensation

168. Ms. Brooks began working at SHC as an AC on March 2, 2009.

169. Ms. Brooks was paid a base salary of \$42,000 per year,⁶ and she was ostensibly eligible to receive bonuses for those students that she enrolled who completed 36 credit hours (“Potential Bonus Students”).

170. While Defendant SHC’s written compensation plan, described above, stated that Ms. Brooks would receive a Completion Bonus for each and every student that Ms. Brooks enrolled who completed 36 credit hours of study, SHC imposed three additional, unwritten requirements on Ms. Brooks in order to receive these bonuses.

⁶ Ms. Brooks’ starting salary was \$38,000 per year, which as increased to \$42,000 in September 2009.

171. Specifically, to receive a “completion” bonus, Ms. Brooks and the other ACs had to (1) start a total of five (5) students in the same module as the Potential Bonus Student started, (2) achieve a three-module average of five (5) starts per module, calculated using the modules before and after the module in which the Potential Bonus Student started, and (3) attain an interview-to-start ratio (“conversion rate”) of at least thirty-three percent (33%) in the same module that the Potential Bonus Student started (collectively, “the Enrollment-Related Requirements”).

172. As a result, SHC’s bonus compensation system, as actually practiced and carried out, provided incentive payments based directly and indirectly upon Ms. Brooks’ and the other ACs’ success in securing enrollments. Therefore, SHC’s compensation system violated the ban on the payment of incentive compensation by schools receiving Title IV funding, 20 U.S.C. § 1094(a)(20); 34 C.F.R. § 668.14(b)(22)(i), and did not qualify under the then-existing safe-harbor regulations, 34 C.F.R. § 668.14(b)(22)(ii), including Regulatory Safe Harbor A, 34 C.F.R. § 668.14(b)(22)(ii)(A), and Regulatory Safe Harbor E, 34 C.F.R. § 668.14(b)(22)(ii)(E).

173. Jesse Hafen, the Director of Admissions at Defendant SHC’s Orem campus, told Ms. Brooks when she began working as an AC that she had to meet the three Enrollment-Related Requirements in order to receive a single “completion” bonus. Mr. Hafen and his assistant applied these Enrollment-Related Requirements when determining Ms. Brooks’ eligibility for bonuses. Mr. Hafen was Ms. Brooks’ direct supervisor during her entire tenure at SHC.

174. Ms. Brooks was aware from the statements of Mr. Hafen and others that she would not receive any “completion” bonuses for her Potential Bonus Students unless she met the three Enrollment-Related Requirements in every module.

175. Ms. Brooks recalls that the version of the Manual that she received when she first started working for Defendant SHC in March 2009 included a chart that showed how Defendant SHC determined ACs' bonuses. That chart associated particular bonus awards with an AC's number of starts and three-module average number of starts. In mid- to late-2009, Defendant SHC demanded that all ACs surrender all copies of the Manual to management. Defendant SHC then issued a revised version of the Manual that omitted the chart directly connecting starts to bonuses. The new version of the Manual that Ms. Brooks and the other ACs received had been scrubbed of all references connecting start-related performance measures to bonuses. Even though the Manual omitted such terms and conditions, in practice, Defendant SHC continued to use starts and other start-related measures to determine ACs' bonuses.

176. Ms. Brooks was a top performing AC at SHC's Orem campus. Ms. Brooks received significant bonus payments, which SHC paid to Ms. Brooks monthly as they were earned. Because the bonus payments fluctuated from month to month, Ms. Brooks' total monthly compensation also changed from month to month.

177. SHC denied Ms. Brooks bonuses for numerous Potential Bonus Students who satisfied the credit-hour requirement due to her failure to achieve the Enrollment-Related Requirements. For example, SHC denied Ms. Brooks "completion" bonuses for Potential Bonus Students who started in December 2009 because she had an interview-to-start conversion ratio of thirty-two percent (32%), which was 1% below SHC's required minimum of thirty-three percent (33%). In another case, SHC denied Ms. Brooks "completion" bonuses because she only had three (3) starts in March 2010, below SHC's required quota of five (5) starts. If Ms. Brooks had successfully enrolled and started more students during the months in question, she would have been paid bonuses for all of the Potential Bonus Students who had started those months. As

such, SHC's bonus system, as actually practiced and implemented, was structured to maximize the ACs' enrollment of students. Because of the way SHC structured the bonus system, the single greatest factor that determined whether an AC would receive a bonus was the number of students the AC enrolled and started. All other factors were relatively inconsequential, including whether any given student completed the required number of credit hours.

178. SHC paid Ms. Brooks numerous bonuses for meeting the Enrollment-Related Requirements. Ms. Brooks' bonuses ranged from \$300 to \$1100 per student. The amount of the bonus Ms. Brooks received depended on two factors: (1) her conversion rate for the module in question—the higher the conversion rate, the larger the bonus—which is itself an indirect measurement of enrollment (interviews divided by starts), and (2) whether Ms. Brooks personally generated the potential student lead on her own, for which she was paid more than if she received it from another source, such as the call center.

179. The bonuses that Ms. Brooks received for meeting the Enrollment-Related Requirements were substantial. Often, the monthly bonus payments equaled or exceeded Ms. Brooks' base salary. For example, on her check from the pay period December 1 through December 15, 2010, Ms. Brooks' year-to-date wages were \$31,618.50 (net of taxes and withholdings) while her year-to-date bonuses were \$31,450.00.

180. Thus, the bonuses provided a significant incentive to Ms. Brooks and the other ACs to meet the Enrollment-Related Requirements by enrolling and starting more students. On information, Relators believe and allege that Ms. Brooks' experiences with the bonus compensation system were typical of other ACs working for Defendant SHC and Defendant Schools generally.

181. Defendant SHC's management communicated start quotas for each module to each of the campuses, and on information, Relators believe and allege that administrative officials, including but not limited to Mr. Hafen, were promised and paid incentives for meeting the start quotas. On information, Relators believe and allege that the same practices occurred at the other Defendant Schools.

182. On at least three occasions, Ms. Brooks personally received a bonus because the Orem campus, where she worked, met its overall start goal for the module. These incentive compensation payments violated the Incentive Compensation Ban and do not even potentially qualify for a safe harbor.

183. Similarly, SHC and its administrative officials provided each AC with a personal start goal for each module. On information, Relators believe and allege that the individual start goals were tailored to each AC in such a way that the goals always pushed the AC to enroll and start more students. For example, if an AC routinely started 5 students in a module, SHC would set that AC's goal as 7 starts; if an AC routinely started 7 students in a module, SHC would set that AC's goal as 9 starts. ACs were always expected to enroll and start more students.

184. To further incentivize ACs to meet their start quotas, Mr. Hafen would periodically offer prizes to the ACs for achieving certain numbers of enrollment or starts ("non-'completion' bonuses"). Mr. Hafen would award these prizes through contests that were based on enrolling or starting new students at SHC. The prizes usually consisted of cash payments or expensive consumer electronics products. Mr. Hafen would offer and pay these incentives at least monthly, if not more frequently.

185. As an example of one of these "contests," in or about March 2010, Mr. Hafen communicated to the ACs at SHC, including Ms. Brooks, that any AC that met his or her

individual goal on the start list would receive an extra \$250 on their paycheck. Further, Mr. Hafen communicated to the ACs at SHC's Orem campus that any AC that met his or her individual goal on the start list would be eligible for a drawing for a 32" flat screen television.

186. On other occasions, Mr. Hafen ran similar contests where he gave Ipods as prizes. Ms. Brooks, among other ACs, received an Ipod for achieving her start goals.

187. In addition and on many occasions, Mr. Hafen gave free movie tickets to ACs who met certain goals relating to enrollments, including best interview-to-start conversion rates or highest starts or enrollments, despite the fact that he knew that such bonuses are strictly prohibited under federal law. Ms. Brooks, as well as other ACs, were given free movie tickets for achieving the specified start goals.

188. Additionally, Mr. Hafen would from time to time provide cash incentives, such as a \$20 bill, to the first AC so set up a certain number of interviews on a particular day or to the first AC to reach a certain number of enrollments on a particular day.

189. Mr. Hafen also ran a contest where the incentive to the ACs for attaining a certain number of starts and a certain conversion rate was a night's stay at a resort in Park City, Utah. Mr. Hafen awarded this prize to another AC.

190. Ken Plant, the Executive Director SHC's Orem campus, and Dr. Stephen Babb, the Dean of Education at the campus, openly referred to the admissions department as the "cesspool" because of the cut-throat competition that existed between the ACs over the enrollment-related contests.

191. Ms. Brooks is also aware that SHC's Orem campus paid bonuses to its FAOs for obtaining financial aid for prospective students. Such bonuses also violate the Incentive Compensation Ban. *See* 20 U.S.C. § 1094(a)(20) (banning incentive compensation for securing

financial aid); 34 C.F.R. § 668.14(b)(22)(i) (same). On information, Relators believe and allege that such compensation practices occurred at other SHC campuses and at other Defendant Schools.

192. The Department of Education was scheduled to audit SHC's Orem campus, where Ms. Brooks worked as an AC, in approximately March 2011. Prior to the Department of Education's audit, Barbara Thomas, SHC's Chief Operations Officer, "coached" Ms. Brooks and the other ACs to provide acceptable responses to questions concerning SHC's enrollment practices. For example, Ms. Thomas made sure that the ACs were prepared to answer "No" to the question: "Are you pressured to enroll or start prospective students in any way?"

193. Several times a year, all ACs, FAOs, and directors of admission who work for SHC and the other Defendant Schools gather at a convention in Las Vegas, Nevada, to discuss tactics to boost enrollment, among other topics.

194. Ms. Brooks attended several Las Vegas conferences in 2009 and 2010. At these conferences, she met ACs and FAOs from SHC's other campuses, as well as from the campuses of the other Defendant Schools. At these conferences, SHC and the other Defendant Schools would distribute written policy manuals to their ACs.

195. At these approximately quarterly conferences, upper-level management of Defendant Schools specifically reminded ACs from all Defendant Schools about the requirements for earning bonuses, including the Enrollment-Related Requirements. All Defendant Schools used the Enrollment-Related Requirements to determine whether ACs were eligible for bonuses.

196. During the conferences, Defendant Schools conveyed a clear message that enrolling students was the most important measure of success for ACs. One of the most

important awards given out during the Las Vegas conferences is the “rock” trophy, which is awarded to the campus with the highest three-month average conversion rate. This award contributes to a corporate culture that prizes any enrollments or starts, regardless of whether the students who are enrolled are capable of completing the academic program or can benefit from the education offered by Defendant Schools.

197. Other awards given out to ACs during the Las Vegas conferences are for the most enrollments or starts by an individual AC and the highest interview-to-enrollment conversion ratio by an AC. These awards also contribute to a corporate culture that (1) prizes any enrollments or starts, whether those enrollments or starts are by qualified students who can benefit from the education offered by Defendant Schools; and (2) prizes an AC’s ability to convert a potential student into a tuition-paying student, whether or not the potential student is qualified or can benefit from the education offered by Defendant Schools.

198. Periodically, the top performing ACs (and their directors) from the various campuses of Defendant Schools are provided an all-expenses-paid vacation to San Diego for “elite” training. Defendant Schools measure performance for this incentive bonus based on conversion rates, which is a measure of starts. ACs are continually competing for these top positions.

199. Relevant to Ms. Wride’s experiences, set forth below, several SHC faculty members and other employees admitted to Ms. Brooks that many of SHC’s faculty members did not meet the qualification requirements of the accrediting standards.

200. In approximately March 2011, Ms. Brooks resigned her employment with SHC after SHC was unable accommodate her with a flexible work schedule, which she needed in order to care for her two children.

Ms. Wride's Experience With Incentive Compensation

201. Ms. Wride was hired on or about July 10, 2009, by David Sambrano, Dean of the Graduate School for SHC's Orem campus, as an AC for the graduate school and as an executive assistant to Mr. Sambrano.

202. At the time she was hired, Ms. Wride was also a student at SHC, having enrolled on or about February 25, 2009, in SHC's respiratory therapy program.

203. When SHC hired Ms. Wride, Mr. Sambrano and Mr. Hafen told her that she would receive a bonus for each student that she enrolled in the graduate school who completed fifteen (15) credit hours of coursework.

204. Because there were not enough prospects for the graduate school, Ms. Wride soon began recruiting students for SHC's undergraduate programs as well.

205. At the time, Mr. Hafen told Ms. Wride that she would also receive a bonus for each student that she enrolled in SHC's undergraduate-level programs who completed thirty-six (36) credit hours.

206. Ms. Wride was successful in enrolling students in both SHC's graduate and undergraduate schools. Consistent with the statements of SHC's management concerning bonuses, Ms. Wride carefully tracked the credit-hour progress of the students that she enrolled.

207. After the first group of the students that Ms. Wride enrolled into SHC's undergraduate programs completed thirty-six (36) credit hours in approximately summer 2010, Ms. Wride went to Mr. Hafen to request her bonuses. Ms. Wride took the transcripts for the relevant students to Mr. Hafen to demonstrate that the students completed the requisite credit hours.

208. Mr. Hafen filled out a "Certificate of Completion" on behalf of Ms. Wride and Ms. Wride signed the Certificate, thereby officially requesting "completion" bonuses.

209. Mr. Hafen then took the information to Ken Plant, Executive Director of the Orem Campus of SHC and regional director of SHC's southern region.

210. About a week later, Mr. Hafen told Ms. Wride that she would receive bonuses for some, but not all, of the students that she enrolled. When she asked Mr. Hafen why she was not receiving bonuses for all of the students she enrolled, Mr. Hafen told her she had to discuss the matter with Mr. Plant.

211. Ms. Wride went to Mr. Plant to discuss the issue and asked why she was not receiving bonuses for all of the students that she enrolled, as she was promised.

212. Mr. Plant told her that she was not eligible to receive the "completion" bonuses because she had not met all the requirements to receive them. Mr. Plant informed her that there were other Enrollment-Related Requirements for receiving bonuses that applied to all of the other ACs and that she also had to meet those requirements in order to receive a bonus.

213. Specifically, Mr. Plant told Ms. Wride that she was not eligible for bonuses on the other students because she had not met the required number of starts. Mr. Plant told Ms. Wride that the reason she did not receive a bonus for the some of the students she enrolled who completed the required number of credit hours is because she "didn't meet the starts that everybody else has to meet" and failed to meet the three-module start average requirement that applied to all other ACs' bonuses.

214. Mr. Plant referred Ms. Wride back to Mr. Hafen to discuss the Enrollment-Related Requirements in detail. Mr. Hafen told Ms. Wride that in order to receive a "completion" bonus, she also had to achieve a certain number of starts in the same module as the Potential Bonus Student started. Specifically, Mr. Hafen told Ms. Wride that she had to start at least six (6) students per module in order to qualify for the bonus. In addition, Mr. Hafen told

Ms. Wride that she also had to have a three-module average of six (6) starts. Mr. Hafen told Ms. Wride that she had to achieve these other requirements during the same module as the Potential Bonus Student had started. (Ms. Wride believes that SHC did not impose the conversion-rate requirement on her because she was not a full-time AC and split her time as an administrative assistant. Because Ms. Wride did not have regular “interviews” with potential students, like the other ACs, SHC could not compute a conversion rate for her.)

215. This same process—in which Ms. Wride would demonstrate that students she enrolled had completed the required number of credit hours to Mr. Hafen, and Mr. Hafen would confer with Mr. Plant about whether Ms. Wride met the other Enrollment-Related Requirements—continued for several months.

216. Ms. Wride did receive bonus payments when she met the Enrollment-Related Requirements, which SHC paid her monthly as they were earned. Because the bonus payments fluctuated from month to month, Ms. Wride’s total monthly compensation also changed from month to month.

217. Over the course of her employment with SHC, Ms. Wride received four (4) or five (5) bonus payments, each totaling from \$1,200 to \$4,000. Because Ms. Wride’s base salary was approximately \$33,000 per year when she started (which SHC later increased to \$37,000 per year), the bonus payments she received were large relative to her base salary. Occasionally, the bonus payments exceeded Ms. Wride’s base monthly salary.

218. Ms. Wride received these “completion” bonuses only because she met the Enrollment-Related Requirements of six (6) total starts in the same module that the Potential Bonus Student started, as well as a three-module average of six (6) starts.

219. Ms. Wride is aware that SHC paid bonuses on a similar basis to the other ACs.

220. Additionally, several ACs also served as FAOs when needed. Ms. Wride is aware that FAOs were paid large bonuses based on the number of students “pushed through” the financial aid system. Such bonuses violate the Incentive Compensation Ban.

221. Ms. Wride is also aware of the non-“completion” bonuses offered to ACs to motivate them to enroll students. On at least a monthly basis, Mr. Hafen would offer bonuses to ACs for attaining certain enrollment-related goals, such as best interview-to-start conversion rate, the first AC to achieve a certain number of enrollments in a given time period, or for the most number of starts or enrollments in a certain period of time, despite the fact that he knew that such bonuses are strictly prohibited under federal law. Mr. Hafen was constantly trying to find prizes for his bonus contests. These bonuses usually took the form of cash payments or expensive consumer electronics products, such as Ipods. On one occasion, Mr. Hafen raffled a big-screen television as the prize. ACs were only eligible to participate in the raffle if they attained certain enrollment objectives.

222. On many occasions, Mr. Hafen gave free movie tickets to ACs who met certain goals, including best interview-to-enrollment conversion rates or the most starts or enrollments.

223. Mr. Hafen told the ACs not to tell anyone about these bonuses because he admitted that he could get in trouble for them.

224. Ms. Wride also attended many of the Las Vegas conferences in 2009 and 2010, where Defendant Schools emphasized that enrolling students was the most important measure of success for ACs, regardless of whether the students who were enrolled were capable of completing the academic program or could benefit from the education.

Defendant Schools Closely Track ACs’ Starts

225. Defendant Schools closely monitor and track the starts of each AC on a daily, weekly, and annual basis. Each AC’s enrollment activity was (and is) included in “Daily

Admissions Reports” and monthly “Admissions Performance Reports,” which, on information and belief, were (and are) distributed to the ACs of Defendant Schools. Because these reports list the performance of other ACs, ACs are invited to compare the number of students they enrolled with the numbers achieved by other ACs and to compete to enroll the most students. Those ACs who enrolled the most students received special recognition and valuable rewards.

226. Defendant Schools emphasize the importance of enrollments and starts to the ACs by providing these performance reports to ACs on a regular basis. For example, each day, Defendant SHC provided a Daily Admissions Report to each of its ACs. This report showed the number of starts that each AC at each of Defendant Schools had obtained during the module and invited ACs to compare their starts against other ACs. On information, Relators allege and believe that all Defendant Schools provide the Daily Admissions Reports to all ACs on a daily basis to foster competition among the ACs over the number of the starts they generate.

227. Defendant Schools identify three “Top Achievers” across all Defendant Schools on the Admissions Performance Reports that are circulated to each AC at each Defendant School after each module. The “Top Achievers” identified on these reports are selected based on the number of starts generated during the module in question.

228. The Procedure Directive mentions that a “Company-wide Top Achievers report,” which “ranks the results of all currently employed Admissions Consultants and enrolling Directors of Admission,” is distributed to all Campus Directors and Directors of Admission. (Procedure Directive at 5, Exhibit 6.)

The Effects of Defendant Schools’ Unlawful Practices

229. Defendant Schools’ incentive compensation practices and emphasis on enrollments, regardless of a student’s ability to benefit from the education, resulted in ACs enrolling students who were incapable of benefitting from SHC’s educational programs. For

example, Ms. Brooks and Ms. Wride observed other ACs enrolling students with severe cognitive disabilities, as well as others with severe mental disabilities. One such student spent class time talking to inanimate objects. Relators are also aware that at least one AC affirmatively recruited “students” from known homeless populations, persuading them to enroll by telling them that taking classes would give them a warm place to go during poor weather.

230. Similarly, Defendant Schools’ incentive compensation practices, which motivate ACs to use high-pressure sales tactics, resulted in ACs unduly influencing and persuading prospective students with serious misgivings about enrolling in school and assuming significant debt to pay for school to enroll in Defendant Schools. For example, although many prospective students who “interviewed” at Defendant SHC’s Orem campus expressed a desire to enroll in academic programs that Defendant SHC’s Orem campus did not offer, ACs at the Orem campus were instructed to convince the prospective students that they should study one of the four programs that the Orem campus offered. Defendant Schools’ pressured enrollment of students has resulted in numerous students dropping out of the programs and defaulting on loans provided under the Title IV, HEA programs.

231. For example, Defendant SHC’s FY2008 three-year cohort default rate was 24.25%. The FY2008 three-year cohort default rates for the other Defendant Schools were as follows: Defendant CAA: 39.74%; Defendant CAD: 32.02%; and Defendant CCSD: 30.67%. *See* Department of Education, FY2008 Cohort Default Rates (Updated April 2011), Column: “Trial 3-Year Default Rate,” *available at* <http://studentaid.ed.gov/about/data-center/student/default>.

232. The 2010 two-year cohort default rate for Defendant SHC’s students was 19.7%. The 2010 two-year cohort default rates for the other Defendant Schools were as follows:

Defendant CAA: 19.9%; Defendant CAD: 26.2%; and Defendant CCSD: 15.3%. *See* Department of Education, Official 2-Year Cohort Default Rate Search for Postsecondary Schools (Fiscal Years 2010, 2009, 2010), *available at* http://www.nsls.ed.gov/nsls_SA/defaultmanagement/search_cohort_2yr.cfm.

233. Graduation rates at Defendant Schools are similarly dismal. For example, for the 2010-11 academic year, the mean graduation rate among Defendant Schools was a scant 40%. (Information reported from the mean across all reporting Defendant Schools; information derived from data available from Department of Education's Integrated Postsecondary Education Data System.)

234. Defendant Schools' use of the interview-to-start conversion rate as the measure of performance for many, if not most, of their incentive compensation programs has a particularly perverse effect on ACs' recruiting practices. Whereas pure start-based quotas do not punish AC's for determining that a particular prospect is not genuinely interested in Defendant Schools' programs or cannot benefit from the education that Defendant Schools provide, the conversion rate measures ACs on their ability to convince *each and every* prospect to enroll, regardless of whether the student really desires to attend or can actually benefit from the education. The use of the conversion rate as a measure of AC performance—and determining eligibility for bonuses based on that measure—punishes ACs for determining that, for example, a prospective student cannot benefit from Defendant Schools' programs or does not want to study the programs offered at a particular campus. Because the conversion-rate metric punishes ACs who determine a prospective student is not a good fit for the school, it deters ACs from even attempting to elicit information from a prospective student that might reveal the student is not a good fit.

**Defendant Schools Have the Same Management and Policies, Which Were Formulated by
Carl Barney**

235. Until January 1, 2013, when Defendant Schools merged into CEHE, Carl Barney was the sole shareholder and owner of Defendant Schools.

236. On information, Relators believe and allege that Mr. Barney was a corporate director of each Defendant School until their merger. On information, Relators believe and allege that Mr. Barney continues to maintain a central management role in CEHE and the individual schools that are now part of CEHE.

237. On information, Relators believe and allege that Mr. Barney was the corporate president of each Defendant School until their merger or held that position with each Defendant School in recent past.

238. On information, Relators believe and allege that in these capacities, Mr. Barney helped to formulate the policies and practices of all Defendant Schools, particularly policies and practices related to AC compensation. As a result of Mr. Barney's personal involvement in establishing business policies and practices for each Defendant School, Defendant Schools have similar, if not identical, policies and practices with respect to AC compensation.

239. On information, Relators believe that Defendants Schools collectively used CollegeAmerica Services, Inc., another company owned, managed, and operated by Carl Barney, to provide centralized management and operational support to each of Defendant Schools. CollegeAmerica Services, through Mr. Barney, may have also played a role in establishing collective policies and practices for all Defendant Schools, including policies and practices relating to AC compensation. As of January 1, 2013, CollegeAmerica Services also merged into CEHE.

240. All Defendant Schools compile information about the performance of ACs at each of their campuses into a single report, which, on information and belief, all Defendant Schools distribute to each of their ACs. On some of these reports, Defendant Schools rank their ACs based on the number of starts, and the ACs from all Defendant Schools are ranked on the same scale and compared with one another. These reports specifically recognize the achievement of the top three ACs, measured in terms of starts during the last module, from across all Defendant Schools. Thus, the top three achieving ACs for any given report could be from different Defendant Schools. Such practices serve to highlight how Defendant Schools employ collective policies and standards for ACs and, particularly, for measuring ACs' performance.

241. All Defendant Schools collectively publish a single course catalog for distribution to students and prospective students.

242. All Defendant Schools prepare a single employment manual for ACs (i.e., the Manual), which, on information and belief, all Defendant Schools provide to all new ACs.

243. On information, Defendant Schools use the same application form for employees and share human resource functions.

244. All Defendant Schools send their ACs to the same conventions in Las Vegas on approximately a quarterly basis. At these conventions, ACs from all Defendant Schools are provided the same instruction and training—including instruction about Defendant Schools' compensation system for ACs and the Enrollment-Related Requirements for bonuses. At these combined conventions, Defendant Schools also collectively recognize the top achievers among all Defendant Schools, which recognition is typically based on the number of starts.

245. Based on this and other information, Relators believe and allege that Defendant Schools have shared policies and practices for many aspects of their businesses, including for

ACs and, particularly, for AC compensation. Because Defendant Schools use the same AC compensation practices, Relators' experiences at Defendant SHC's Orem campus are materially similar to the experiences of ACs at Defendant SHC's other campuses and at all other Defendant Schools.

D. Defendant Schools' Compensation Practices Did Not Qualify for Regulatory Safe Harbor

246. As previously set forth in this Complaint, in 2002, the Department of Education issued regulations accompanying the Incentive Compensation Ban to clarify that under regulatory safe harbors, schools could pay certain types of compensation without violating the Incentive Compensation Ban. The Department of Education eliminated these regulatory safe harbors in 2011.

247. Under Regulatory Safe Harbor A, schools were allowed to pay "fixed compensation, such as a fixed annual salary or a fixed hourly wage, as long as that compensation [wa]s not adjusted up or down more than twice during any twelve month period, and any adjustment [wa]s not based solely on the number of students recruited, admitted, enrolled, or awarded financial aid." 34 C.F.R. § 668.14(b)(22)(ii)(A).

248. Defendant Schools' above-described conduct, however, did not fall within the purview of, or satisfy, Regulatory Safe Harbor A for several reasons.

249. First, Defendant Schools' compensation system, as practiced, was not eligible for Regulatory Safe Harbor A because the compensation at issue was not "fixed compensation" within the meaning of Regulatory Safe Harbor A. Instead of a permissible "fixed annual salary" or "fixed hourly wage," the compensation at issue was a form of incentive compensation—bonuses. Indeed, Defendant Schools themselves stated that the bonus payments were "not part of regular compensation." The bonuses were not "fixed compensation" because they constantly

fluctuated in value—worth anywhere from nothing to many thousands of dollars. Additionally, the bonuses were not an hourly wage—they did not depend on the number of hours worked—nor were they a form of salary—they were not regular payments of a certain amount.

250. Second, because Defendant Schools paid the “completion” bonuses monthly, as the ACs earned the bonuses, the bonus payments caused ACs’ compensation to fluctuate month to month. Stated otherwise, Defendant Schools adjusted ACs compensation up or down each month—more than twice during any twelve-month period.

251. Third, with respect to the non-“completion” bonuses that Defendant SHC offered and paid to ACs, such bonuses were based solely and exclusively on enrollments. Such bonuses ran afoul of Regulatory Safe Harbor A, which expressly required that “any adjustment” in an ACs compensation “not [be] based solely on the number of students recruited, admitted, [or] enrolled.”

252. Under Regulatory Safe Harbor E, schools were permitted to pay “[c]ompensation that [wa]s based upon students successfully completing their educational programs, or one academic year of their educational programs, whichever is shorter.” 34 C.F.R. § 668.14(b)(22)(ii)(E).

253. Defendant Schools’ above-described conduct, however, did not fall within the purview of, or satisfy, Regulatory Safe Harbor E for several reasons.

254. First, Defendant Schools did not pay the “completion” bonuses “based upon” a student’s success in completing one academic year of study but instead paid bonuses to ACs for achieving the Enrollment-Related Requirements. Defendant Schools structured the “completion” bonus requirements so that the Enrollment-Related Requirements determined whether an AC received a bonus. Unless an AC had met the minimum Enrollment-Related Requirements, the AC

would receive *no* bonuses at all, irrespective of the number of students who had completed the required credit hours. Under Defendant Schools' compensation practices, an AC responsible for dozens of completing students would receive no bonus compensation if she failed to meet the Enrollment-Related Requirements, while another AC who had *just one* completing student could receive a substantial bonus for meeting the Enrollment-Related Requirements. The "completion" bonus was not "based upon" completions—the completions were just an administratively expedient way to try to hide the real criteria for the bonuses: the Enrollment-Related Requirements.

255. Because the Enrollment-Related Requirements were far more difficult for ACs to attain, meeting the Enrollment-Related Requirements motivated AC activity. Although Regulatory Safe Harbor E was expressly designed to motivate recruiters, such as ACs, to focus on the quality of a potential student recruitment, rather than on the sheer number of students recruited, Defendant Schools' "completion" bonus system, by imposing the Enrollment-Related Requirements, returned the focus to the sheer number of students each AC enrolled.

256. For example, under Defendant Schools' "completion" bonus program, an AC who, in a given module, carefully recruits four (4) students who each complete their first year of study receives no bonuses, while another AC who uses high-pressure sales tactics to recruit eight (8) students of dubious quality, only two (2) of which complete their first year of study, receives substantial bonuses. Because the average student at Defendant Schools receives at least some form of Title IV funding assistance, in both cases the Department of Education is likely paying significant sums to help the students pay for tuition at Defendant Schools. In the first case, the Department of Education has received good value for its investment—four students who are likely to graduate. In the latter case, the Department of Education has not received a good value

for its investment—it paid for eight students, but received only two who were likely to graduate. However, Defendant Schools financially benefit more from the latter recruiter, who has generated eight students paying tuition using Title IV funding, than from the first recruiter, who has only generated four tuition-paying students. Defendant Schools’ compensation system was designed to encourage the latter, even though it is contrary to the letter and spirit of Regulatory Safe Harbor E.

257. Second, none of the regulatory safe harbors, other than Regulatory Safe Harbor A, permitted schools to consider an employee’s success in enrolling students as *any* part of the compensation decision. As a result, Defendant Schools’ use of the Enrollment-Related Requirements as part of the “completion” bonus program removed such compensation from the protections afforded by Regulatory Safe Harbor E.

258. Third, none of non-“completion” bonuses that Defendant SHC offered and paid to ACs qualified for protection under Regulatory Safe Harbor E because none of those bonuses were related in any way to a student’s completion of one year of study. Instead, all of the non-“completion” bonuses were directly tied to the ACs’ success in enrolling and starting students.

259. Consequently, Defendant Schools’ compensation system, as practiced, violated the Incentive Compensation Ban and did not qualify for protection under the regulatory safe harbors.

Defendant Schools Knowingly Violated the Incentive Compensation Ban

260. Under the False Claims Act,
the terms “knowing” and “knowingly”—
(A) mean that a person, with respect to information—
(i) has actual knowledge of the information;

(ii) acts in deliberate ignorance of the truth or falsity of the information; or

(iii) acts in reckless disregard of the truth or falsity of the information; and

(B) require no proof of specific intent to defraud.

31 U.S.C. § 3729(b)(1).

261. Defendant Schools knew (and know) that their compensation practices violate the Incentive Compensation Ban and did not qualify for any regulatory safe harbors. Consequently, when Defendant Schools made statements and certifications in their PPAs and other documents, such as compliance audit Management Assertions, G5 Certifications, school certifications associated with FDLP and FFELP loans, and MPNs, regarding their compliance with the Incentive Compensation Ban and eligibility for Title IV funding, those statements were knowingly false. Defendant Schools' compensation practices are inconsistent with Defendant Schools' statements and certifications of compliance in their PPAs, compliance audit Management Assertions, and other documents.

262. At the time that Defendant Schools stated in their PPAs and other documents that they would not make incentive payments to admissions personnel based on their success in securing enrollments, Defendant Schools knew that they were paying, and planned to continue to pay, admissions personnel incentive payments based directly on their success in securing enrollments.

263. Defendant Schools knew that their misrepresentations regarding compliance with the Incentive Compensation Ban would result in the payment of federal funds and that a reasonable and foreseeable consequence of such misrepresentations was that such funds would be paid out.

264. Defendant Schools' Manual discusses the Incentive Compensation Ban in detail, including the requirements for the regulatory safe harbors. Defendant Schools' Manual states that "[a]ccording to Federal Regulations [sic] . . . bonuses, commissions or other incentive payments may **not** be paid to any employee based, directly or indirectly, on **starts**. (Manual at 33 (emphasis in original), Exhibit 5.) The Manual then sets forth the pertinent parts of the Incentive Compensation Ban in full. (*Id.*) The Manual concludes that "according to the regulation, incentives relating to enrolling students is generally prohibited." (*Id.*) Nevertheless, Defendant Schools' compensation practices violate this prohibition.

265. The Manual also explains and summarizes, generally correctly, the applicable regulatory safe harbors. The Manual attempts to explain how Defendant Schools' written compensation plan falls within Regulatory Safe Harbor E. However, Defendant Schools' actual compensation practices are materially different from their written compensation plan. These differences remove Defendant Schools' compensation practices from the protection afforded by Regulatory Safe Harbor E, as well as all other regulatory safe harbors.

266. That Defendant Schools knew (and know) their compensation practices violate the Incentive Compensation Ban is demonstrated by the material differences between Defendant Schools' written compensation plan, as set forth in Manual, and Defendant Schools' actual compensation practices. On information, Relators believe and allege that Defendant Schools prepared the written compensation plan for the Manual to demonstrate to the Department of Education and ACCSC that its "official" compensation plan complied with the Incentive Compensation Ban and applicable regulatory safe harbors. On information, Relators believe and allege that Defendant Schools failed to include their actual compensation practices in the Manual

because they knew that such practices violated the Incentive Compensation Ban and failed to qualify for protection under the regulatory safe harbors.

267. That Defendant Schools knew (and know) that their compensation practices violated the Incentive Compensation Ban and did not qualify under any of the regulatory safe harbors is also demonstrated by the fact that in 2009, Defendant Schools retrieved (or attempted to retrieve) all copies of their Manual that contained charts and other possible information revealing that Defendant Schools determined ACs' bonuses based, at least in part, on the number of students each AC started and each AC's three-module average number of starts. Although Defendant Schools did not modify their compensation practices in any material way when they revised the Manual—and specifically continued to base AC bonuses on start-related performance measures, specifically the Enrollment-Related Requirements—Defendant Schools removed all references to such practices in their written Manual because they knew that such practices were unlawful.

268. Defendant SHC's Director of Admissions for the Orem campus admitted knowing that Defendant SHC's non-"completion" bonuses were not lawful.

269. Additionally, Defendant Schools' upper management "coached" ACs at Defendant SHC's Orem campus about how to respond to inquiries from auditors from the Department of Education concerning the propriety of Defendant SHC's enrollment practices, demonstrating that Defendant Schools knew their enrollment practices were inappropriate. On information, Relators believe and allege that Defendant Schools' management had similar discussions with ACs and employees of other campuses to cover up Defendant Schools' true compensation practices.

E. Defendant SHC's Violation of Attendance-Taking and Refund Requirements

270. Through their work, Ms. Brooks and Ms. Wride became aware of certain practices at SHC's Orem campus relating to the falsification of attendance records by both faculty and administration. Both faculty and administrative personnel were known to mark students present on official attendance forms when students did not, in fact, attend classes.

271. Similarly, faculty and administrative officials would alter attendance reports to show that certain students had attended classes when the students had not actually done so.

272. In one example, a professor recorded a student as having perfect attendance even though the student had given birth during the module in a different part of the state and had not been to the campus since that time.

273. In another example, a professor submitted a grade change form for a grade that another professor had given the student. The grade change form indicated that the "reason" for the grade change was that a "death in the family" had resulted in "almost no attendance." However, the original attendance records for the class indicated that the student had perfect attendance.

274. In another example, an instructor submitted an attendance reporting sheet during the first week of an externship that was completely filled out and that indicated the student had perfect attendance for the module that had only just begun.

275. As an additional example, a professor was found "incorrectly report[ing] attendance," including "record[ing] student attendance when the student was actually not in the building or completing a documented assignment in replacement of attendance," because of the instructor's "drive to qualify for bonus dollars." Email communications between the instructor, Dr. Stephen Babb, the Dean of Education at SHC's Orem Campus, Mr. Collier, and others

document several examples of an instructor marking students presence when the students had not, in fact, attended the classes in question.

276. Defendant SHC's own internal communications demonstrate the school was aware of the consequence of falsely reporting student attendance. In one such email communication, Dr. Babb wrote that "the attendance roll and grade sheet are official documents...that when they are signed by the instructor, they represent legal documents that are used to draw down federal funds." The communication notes that "we have to be able to certify their accuracy."

277. Nevertheless, if Defendant SHC's records at the end of a disbursement period indicated that SHC was required to reimburse Title IV funds to the Department of Education because a student had failed to attend class, Defendant SHC's administration would ask the instructor who had marked the student absent whether the attendance records could be modified so that SHC would not have to return Title IV funds. Mr. Collier observed the administration put "lots of pressure" on instructors to change the attendance records.

278. By reporting a student as having attended classes when he or she did not, Defendant SHC either (i) delayed the applicable withdrawal date, 34 C.F.R. §§ 668.22(b)(1) ("[T]he student's withdrawal date is the last date of academic attendance as determined by the institution from its attendance records."), thereby fraudulently inflating the amount of Title IV funds the student appeared to have earned and lowering the amount SHC was obligated to return to the Department of Education, or (ii) completely avoided reporting a student as having withdrawn (i.e., having ceased attending classes), thereby fraudulently avoiding any obligation to return unearned Title IV funds to the Department of Education. By recording students as having attended classes that they did not attend, SHC falsely represented that the students had earned

more Title IV funding than they actually had earned, even though SHC was legally obligated to refund the unearned funds to the Department of Education.

F. Defendant SHC's Violation of Academic Progress Requirements

279. Through their work, Ms. Brooks and Ms. Wride became aware of certain practices at SHC's Orem campus relating to the falsification of grades by both faculty and administration. Faculty and administrative staff would falsify students' grades by various means, including employing grading standards that guaranteed students would receive passing grades or by simply giving students grades they did not earn.

280. Because faculty members were paid bonuses both based on the number of students who "successfully" completed their courses and based on students' evaluations, faculty members had an incentive to ensure that all students received passing scores—regardless of merit.

281. Specifically, both Ms. Brooks and Ms. Wride are aware that SHC's Orem campus registrar, Austin Collier, was directed to change a student's grade from a failing grades ("F") to a passing grade by the Director of the Orem campus's Financial Aid Office, Mary Jo Barratt, so that the school could "order more money [from the Department of Education] for the student."

282. In another example, Dr. Bryan Thayn, an instructor, attempted to change a student's grade two years after the grade was first reported in order to make the student eligible for Title IV funding and so that the school could obtain that funding on behalf of the student.

283. In another example, a student that only attended two classes during the entire module was given an 88% for attendance, was given credit for a paper that she never wrote, and was given a passing grade by the instructor.

284. As another example, a professor submitted a grade change form for a student—from a D to a C+ —for a class the student had not yet taken and that was scheduled to begin in

the future. This grade change was submitted for the same student, described above, who had recently given birth and was unable to attend classes because of her distance from the campus.

285. As an additional example, it appeared that a professor submitted grades for an externship that the students never actually participated in.

286. Defendant SHC's faculty were paid bonuses based on the number of students who "successfully completed" their courses. Instructors were not given bonuses for students given failing grades. Instructors would receive larger bonuses as greater percentages of the students in their classes "successfully completed" their courses.

287. Mr. Collier was aware that instructors submitted passing grades for students who had failed to complete all of the necessary course work based on the assumption that the students would complete make-up work in lieu of work they had missed but prior to the make-up work actually being completed.

288. Furthermore, correspondence between Mr. Collier and faculty members documents the faculty members' use of grading scales that guaranteed that every student would receive a passing grade in the class.

289. If Defendant SHC's records at the end of a disbursement period indicated that SHC was required to reimburse Title IV funds to the Department of Education because a student had failed to make satisfactory academic performance, Defendant SHC's administration would ask the instructor who had given the student failing grades whether the grade could be modified so that SHC would not have to return Title IV funds. Mr. Collier observed the administration put "lots of pressure" on instructors to change grades.

290. By giving students grades they did not earn and by grading students based on impossible-to-fail standards, SHC ensured that those students would continue to take additional

classes from SHC that were paid for using Title IV funds, even though the students were not eligible to take any additional classes or utilize any additional Title IV funds.

Defendant SHC Knowingly Submitted False Attendance Records and Grades

291. Defendant SHC knew that it was required to submit accurate information concerning student attendance and grades, that its submission of this information constituted a certification by the school to the Department that the information it supplied was accurate, and that submitting false information concerning attendance and grades was unlawful. Indeed, SHC was well aware that it submitted such information to the Department of Education in order to request additional Title IV funding—or, in the vernacular of SHC, to “order more money” from the Department of Education

292. Indeed, ACCSC’s accreditation standards expressly require SHC to accurately maintain grade and attendance records and enforce reasonable academic performance requirements.

293. Additionally, Defendant Schools’ combined course catalog discusses the importance of academic progress and attendance and the necessity of students attending classes and meeting minimum academic performance standards.

294. Managerial-level employees at Defendant SHC’s Orem campus were often directly and personally involved in the violations of the attendance and grading regulations, despite warnings from Dr. Babb.

G. Defendant SHC’s Violation of Accrediting Standards Relating to Faculty Qualifications

295. In the summer of 2010, Ms. Wride changed jobs, becoming the executive assistant to Dr. Stephen Babb, the Dean of Education at SHC’s Orem Campus.

296. Soon after she started working as Dr. Babb's executive assistant, Dr. Babb asked Ms. Wride to investigate each faculty member's qualifications, including education, work, and clinical experience, to ensure that each faculty member met the minimum accrediting standards of ACCSC.

297. ACCSC is the accrediting agency for Defendant SHC.

298. In the course of her investigation, Ms. Wride discovered that many faculty members at SHC's Orem campus did not have the required minimum qualifications, as established by the ACCSC, to teach the courses that SHC had assigned them to teach. For example, several faculty members lacked sufficient academic degrees and/or related practical work experience to meet the ACCSC accreditation standards for faculty members.

299. As an example, Ms. Wride discovered that Dr. Robert Roberts did not have the minimum number of years of related practical work experience that the ACCSC required him to have to be eligible to teach certain courses, including medical and radiological course, in the Medical Specialties and Health Care Administration programs.

300. Ms. Wride discovered the deficiencies in Dr. Roberts' background when she reviewed the information in SHC's "Faculty Personnel Report" for Dr. Roberts. SHC prepares such Faculty Personnel Reports for the ACCSC to demonstrate that the faculty members meet the minimum accreditation standards. The Faculty Personnel Reports specifically state: "By submitting this report to ACCSC, both the school and the faculty member certify that the information contained herein, attached hereto, and maintained on file with the school is correct and that the faculty member's qualifications comply with the applicable Standards of Accreditation."

301. Ms. Wride found mistaken, misleading, or untrue representations in Dr. Roberts' Faculty Personnel Report. Indeed, Ms. Wride contacted the businesses that Dr. Roberts claimed to serve as his required practical work experience and found that Dr. Roberts had materially misrepresented the nature of his prior work experience.

302. As a result, Dr. Roberts did not have the required minimum number of years of practical work experience in the relevant subject area, as required by the ACCSC's accrediting standards, for him to teach the courses that SHC assigned him to teach and that he was in fact teaching.

303. Ms. Wride found similar problems with the claimed qualifications and credentials of numerous other faculty members at SHC's Orem campus. For example, through her investigation, Ms. Wride also discovered that Dr. Bryan Thayn did not have sufficient education and related practical work experience to meet the ACCSC accreditation standards for faculty members. In particular, Ms. Wride discovered that Dr. Thayn had never practiced as a chiropractor and had no related practical work experience and therefore did not have the minimum number of years of related practical work experience required by the ACCSC to teach the courses that SHC assigned him to teach and that he was in fact teaching.

304. Ms. Wride brought these deficiencies to the attention of Dr. Babb. Dr. Babb informed Ms. Wride that he was already aware of the shortcomings in the qualifications and credentials of several of the faculty members. Dr. Babb told Ms. Wride that when he previously brought the problems to the attention of SHC's upper management, he was nearly terminated for exposing the problems. Dr. Babb asked Ms. Wride to "dig deeper" and report back to him.

305. After confirming her prior findings, Ms. Wride went back to Dr. Babb with the information. Eventually, Dr. Babb went to Mr. Plant with the information. On information,

Relators believe and allege that SHC retaliated against Dr. Babb for attempting to bring to light the fact that SHC had knowingly provided materially false Faculty Personnel Reports to ACCSC by reprimanding Dr. Babb, withholding bonuses he had earned, and sanctioning him with a three-day involuntary leave of absence.

306. Shortly thereafter, Mr. Plant called Ms. Wride into his office and demanded that she stop investigating faculty qualifications and to stop doing anything more with respect to faculty issues, even though Ms. Wride was specifically hired by Dr. Babb to track and document faculty qualifications and to ensure that SHC's faculty members complied with accrediting standards.

307. Ms. Wride showed documentary proof of the results of her investigation to Mr. Plant during the meeting. In response, Mr. Plant told Ms. Wride to "leave it alone" and to "never look at it again."

308. Concerned about the information she had learned, Ms. Wride instead reported the results of her investigation directly to Eric Juhlin, Chief Executive Officer of CollegeAmerica Services, Inc., and Barbara Thomas, Chief Operating Officer of CollegeAmerica Services, Inc. (On information, Relators believe and allege that CollegeAmerica Services provides management, administrative, legal, human resource, and other services to all Defendant Schools.) Specifically, Ms. Wride showed the documentary proof establishing the faculty members' deficiencies to both Mr. Juhlin and Ms. Thomas and discussed in detail each item with them. Even though Mr. Juhlin and Ms. Thomas assured Ms. Wride that they would address the issue, no corrective action was ever taken. Most, if not all, of the faculty members that Ms. Wride discovered had insufficient qualifications continue to teach courses at SHC that they are not eligible to teach pursuant to ACCSC accreditation standards.

309. Additionally, SHC failed to correct any of its prior false representations to the ACCSC regarding the faculty members' qualifications.

310. Instead, after Ms. Wride brought the materially erroneous information to the attention of Defendant Schools' most senior management, SHC continued to submit the same false Faculty Personnel Reports to the ACCSC to maintain its accreditation.

311. Additionally, for a certain period of time, Ms. Wride was responsible for preparing the Faculty Personnel Reports that SHC provided to the ACCSC. Generally speaking, the faculty member would provide information to prepare the reports to Ms. Wride, who would investigate the information provided to determine whether it was accurate and truthful. She would then prepare the written report for the faculty member to sign. SHC management pressured Ms. Wride to provide false information on many of the reports. Ms. Wride refused to complete any report that SHC pressured her to falsify.

312. After Mr. Plant learned that Ms. Wride had reported the results of her investigation to Mr. Juhlin and Ms. Thomas, he stripped her of all responsibility and excluded her from day-to-day operations in retaliation. Ms. Wride believes that SHC did not want to risk firing her because of the information she had learned.

313. Ms. Brooks also believes that SHC stripped Ms. Wride of all responsibilities because Ms. Wride brought the fact that SHC's faculty lacked the requisite qualifications to the attention of Defendant School's upper-level management.

314. The ACCSC conducted an audit of SHC's Orem campus in approximately spring 2011. SHC's management forced Ms. Wride to "take the day off" to make sure that Ms. Wride did not have any contact with the auditors and, in particular, to prevent Ms. Wride from disclosing the results of her investigation about insufficient faculty qualifications to the auditors.

315. In further retaliation for Ms. Wride's report to Mr. Juhlin and Ms. Thomas, Mr. Plant had Ms. Wride dropped from SHC's respiratory therapy program. At the time, Ms. Wride only needed six additional classes to complete her bachelor's degree.

316. When Ms. Wride contacted Ms. Thomas to complain of her treatment, Ms. Thomas agreed to reinstate Ms. Wride and to waive her tuition and fees if Ms. Wride agreed to be quiet about the faculty qualifications problems and to "just leave things alone."

317. Ms. Wride resigned her employment with SHC on June 6, 2011, three days after she graduated and after she found a job as a respiratory therapist.

318. Both before and after resigning her position at SHC, Ms. Wride attempted to report the faculty qualifications problems to the Department of Education and the ACCSC. Neither the Department of Education nor the ACCSC ever responded to any of her reports.

Defendant SHC Knowingly Submitted False Information to ACCSC

319. On information, Relators believe and allege that Defendant SHC knowingly prepared the false Faculty Personnel Reports before Ms. Wride became responsible for preparing and verifying their accuracy. On information, Relators believe and allege that Defendant SHC knowingly submitted these false Faculty Personnel Reports to ACCSC to obtain accreditation.

320. Defendant SHC's management knew that several Faculty Personnel Reports that SHC has previously submitted to ACCSC to obtain accreditation were materially false. However, Defendant SHC did nothing to correct these false submissions to ACCSC.

321. Ms. Wride specifically informed Defendant SHC's senior management that certain Faculty Personnel Reports that SHC had submitted to ACCSC were materially false. Defendant SHC's management took no corrective action in response to this information.

322. Instead of taking corrective action, Defendant SHC's management took steps to cover up the problem, including reprimanding Dr. Babb, taking away all responsibilities from

Ms. Wride, demanding that Ms. Wride stop looking into the issue and remain quiet about the results of her investigation, and removing Ms. Wride from her program of study for refusing to stay quiet about the problems she discovered.

323. Ms. Wride also specifically informed Defendant Schools' senior management that certain Faculty Personnel Reports that Defendant SHC had submitted to ACCSC were materially false. Defendant Schools' management took no corrective action in response to this information.

324. Instead of taking corrective action, Defendant Schools' senior management attempted to cover up of the information that Ms. Wride had discovered. For example, Defendant Schools' senior management offered to allow Ms. Wride to attend school for no cost in exchange for Ms. Wride agreeing to remain quiet about the faculty qualification problems and false Faculty Personnel Reports.

325. Even after Ms. Wride brought the materially false information to the attention of Defendant SHC's and Defendant Schools' senior management, Defendant SHC continued to make the false Faculty Personnel Reports available to ACCSC as proof of the faculty members' purported qualifications.

326. Even after Ms. Wride brought the materially false information to the attention of Defendant SHC's and Defendant Schools' senior management, Defendant SHC's management asked Ms. Wride to prepare further false Faculty Personnel Reports.

327. Knowing that the information Ms. Wride possessed about the false Faculty Personnel Reports seriously jeopardized Defendant SHC's accreditation, Defendant SHC's management told Ms. Wride to be absent from work on the day that ACCSC's auditors were scheduled to visit SHC's Orem campus.

328. Defendant SHC knew that providing false Faculty Personnel Reports to ACCSC would result in ACCSC accrediting Defendant SHC even though many of its faculty members did not possess the minimum qualifications required under the relevant ACCSC accreditation standards.

329. Defendant SHC knew that its misrepresentations concerning faculty qualifications, which it knew would cause ACCSC to accredit Defendant SHC, would result in the payment of federal funds and that a reasonable and foreseeable consequence of such misrepresentations were that such funds would be paid out.

330. On information, Relators believe and allege that SHC management has pressured faculty at other SHC campuses to submit false information to SHC's accreditors. On information, Relators believe and allege that Defendant SHC has a pattern and practice of submitting false information to accrediting agencies to obtain accreditation.

H. Defendant Schools' Submission of False Claims

331. Every request for a federal grant, every request for a loan under FDLP, every request for a federally guaranteed loan under FFELP, every interest payment on a subsidized Stafford Loan, and every government payment on a loan made on behalf of a student attending Defendant Schools constitutes a separate false claim.

332. A large majority of students attending Defendant Schools receive Title IV funding assistance in one form or another.

333. For example, during the 2010-2011 academic year, approximately 85% of students attending Defendant Schools received some type of loan under a Title IV, HEA program, while approximately 74% of students received a Pell Grant. (Information reported from the mean across all reporting Defendant Schools; information derived from data available from Department of Education's Integrated Postsecondary Education Data System.)

334. During the 2009-2010 academic year, approximately 87% of students attending Defendant Schools received some type of loan under a Title IV, HEA program, while approximately 74% of students received a Pell Grant. (*Id.*)

335. Student A enrolled in Defendant SHC's program on or about January 18, 2010. On information, Relators believe and allege that Student A received a loan under a Title IV, HEA program and may have received a Pell Grant. Ms. Brooks received a bonus for enrolling Student A because Ms. Brooks met the Enrollment-Related Requirements.

336. Student B enrolled in Defendant SHC's program on or about February 15, 2010. On information, Relators believe and allege that Student B received a loan under a Title IV, HEA program and may have received a Pell Grant. Ms. Brooks received a bonus for enrolling Student B because Ms. Brooks met the Enrollment-Related Requirements.

337. Student C enrolled in Defendant SHC's program on or about April 12, 2010. On information, Relators believe and allege that Student C received a loan under a Title IV, HEA program and may have received a Pell Grant. Ms. Brooks received a bonus for enrolling Student C because Ms. Brooks met the Enrollment-Related Requirements.

338. Additionally, on information, Relators allege that Defendant SHC received Title IV funding for Student A, Student B, and Student C at a time when the school was knowingly out of compliance with the (1) attendance-taking and refund requirements, (2) the academic progress requirements, and (2) the faculty-qualification accrediting standards.

339. Each grant award, disbursement of FDLP loans, and government repayment of loan interest or defaulted loan principal was caused by Defendants' false certifications and statements in the PPAs, compliance audit Management Assertions, G5 Certifications, MPNs, school certifications, and other documents, that Defendant Schools were in compliance with the

Incentive Compensation Ban and were therefore eligible to receive Title IV funding. Defendants made these false certifications and statements despite the fact that they had actual knowledge of their falsity. Each request for payment constitutes a false claim under the FCA.

340. Each grant award, disbursement of FDLP loans, and government repayment of loan interest or defaulted loan principal to a student attending Defendant SHC was caused by Defendant SHC's false certifications and statements in its Faculty Personnel Reports and other documents that Defendant SHC's faulty members met the minimum accrediting standards of the ACCSC. Defendant SHC made these false certifications and statements despite the fact that it had actual knowledge of their falsity. Each request for payment constitutes a false claim under the FCA.

I. Doe Auditor Defendants' Submission of False Statements

341. As stated above, to remain eligible to receive Title IV funding, a school that participates in any Title IV, HEA program must each year provide the Department of Education with an annual compliance audit of its administration of Title IV, HEA programs, and an audit of the school's general purpose financial statements, prepared by independent auditors. 20 U.S.C. § 1094(c)(1)(A); 34 C.F.R. §§ 668.23(a)(2), (a)(4). Accountants preparing these audits for for-profit schools, like Defendant Schools, must conduct their annual financial statements and compliance audits in accordance with the Department of Education Office of Inspector General's Audit Guide, among other applicable standards and guidelines.

342. Doe Defendant Auditors conducted the annual compliance and financial statement audits for Defendant Schools from approximately July 1, 2002, to the present.

343. Doe Defendant Auditors were required to comply with a variety of standards and policies in conducting their audits of Defendant Schools. Among other requirements, Doe Defendant Auditors were required to perform the audits in accordance with the standards for

financial audits of the U.S. General Accounting Office’s *Government Auditing Standards* (“GAS”), issued by the Comptroller General of the United States, and the Statements on Standards for Attestation Engagements (SSAEs), as amended by SSAE #9, issued by the American Institute of Certified Public Accountants (AICPA). (Audit Guide at I-1, Exhibit 2 hereto.) SSAE #3, as amended, provides “that an examination-level engagement includes ‘designing the examination to detect both intentional and unintentional noncompliance that is material to management’s assertion.’” (*Id.* at I-3.)

344. One of the primary objectives of the audit and attestation activities of the Doe Defendant Auditors was to “determine and report whether” the school under investigation “complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on the financial statements,” as well as “complied, in all material respects with specified compliance requirements.” (Audit Guide at I-2.) Doe Defendant Auditors were required to use “due care to tailor the procedures so that the financial statement audit and compliance attestation engagement objectives are achieved.” (*Id.*)

345. The relevant audit requirements specifically require auditors, including Doe Auditor Defendants, to “design and perform procedures to provide reasonable assurance of detecting significant illegal acts and to report . . . any fraudulent act or indication of such acts.” (*Id.* at I-2.)

346. The Audit Guide specifically instructs auditors, such as Doe Defendant Auditors, to “be aware of fraud or high risk areas and recognize basic weaknesses in internal control.” (*Id.* at I-2.) The Audit Guide provides some examples of “high risk indicators” that trigger further obligations on the part of auditors. (*Id.*; *id.* Appendix B.) The Audit Guide requires that “[u]pon discovery of a fraudulent act or indication of such an act related to Title IV Federal programs,

regardless of dollar value,” an auditor must promptly report such information to the Department of Education in writing. (*Id.* at I-4.)

347. The Audit Guide requires auditors to perform examination-level verification of the following Required Management Assertion, among others: The school did “[n]ot pa[y] to any persons or entities any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments, financial aid to students, or student retention [34 CFR 668.14(b)(22)].” (*Id.* at II-3.) The Audit Guide further explains that “**the institution must have methods of determining compliance with**” this and the other eligibility requirements and that the auditor must report any compliance failures. (*Id.* at II-5 (emphasis in original).) Additionally, the Audit Guide requires that “all instances of noncompliance identified . . . by the [auditor] during his/her engagement must be reported as a finding in the Schedule of Findings and Questioned Costs.” (*Id.* at I-15.)

348. In order to ensure that the Required Management Assertions are true and correct, compliance auditors, such as the Doe Defendant Auditors, must “[r]eview, evaluate, and document the institution’s methodologies for determining compliance with institutional eligibility and participation criteria.” (*Id.* at II-5.) Indeed, the Audit Guide specifically requires compliance auditors, such as Doe Defendant Auditors, to “[t]est payroll and other disbursement records to determine whether the institution paid to any persons or entities any commission, bonus, or other incentive payment based directly or indirectly on success in: securing enrollments, financial aid to students or student retention.” (*Id.* at II-7.)

349. Furthermore, the Department of Education’s Audit Guide, with which Doe Defendant Auditors were required to comply, specifically points out that auditors are required not only use to due care in planning, performing, and evaluating the results of their investigation,

they must exercise “the proper degree of professional skepticism to achieve reasonable assurance that material noncompliance will be detected.” (*Id.* at I-4 (quoting GAS, Paragraph 3.26).) In particular, the Audit Guide “caution[s auditors] against ignoring basic weaknesses in internal control, performing audit steps mechanically (auditing form over substance), and accepting explanations for audit exceptions without competent evidence.” (*Id.*)

350. On information, Relators believe and allege that Doe Defendant Auditors knowingly failed to perform professionally competent audits of Defendant Schools, and particularly, knowingly failed to adequately determine whether Defendant Schools’ compensation practices for ACs and FAOs complied with all applicable legal requirements, and therefore, whether the corresponding Required Management Assertions were true and correct.

351. Additionally, even though several (if not all) of Defendant Schools displayed “high risk indicators” of fraud and abuse, on information, Relators believe and allege that Doe Defendant Auditors knowingly failed to identify or follow up on such indicators and knowingly failed to notify the Department of Education, as required.

352. On information, Relators believe and allege that Doe Defendant Auditors should have paid particular attention to Defendant Schools’ compensation practices for ACs because Doe Defendant Auditors knew that (1) Defendant Schools derived a substantial portion of their revenues from Title IV, HEA programs; (2) a large majority of students attending Defendant Schools paid for their education, at least in part, with Title IV funding; (3) Defendant Schools expended large amounts on AC compensation; and (4) a large proportion of Defendant Schools’ compensation for ACs was denominated as “bonuses.”

353. On information, Relators believe and allege that Doe Defendant Auditors issued compliance audits and financial statement audit opinions knowing them to be false with respect

to Defendant Schools' compliance with the Incentive Compensation Ban or in reckless disregard of the truth or falsity of the information they provided to the United States on this subject.

354. On information, Relators believe and allege that Doe Defendant Auditors made false certifications of compliance respecting Defendant Schools' financial statements and compliance obligations while knowing that Defendant Schools would submit such certifications to the Department of Education to obtain Title IV funding and to remain eligible to receive Title IV funding. Indeed, on information, Relators believe and allege that Doe Defendant Auditors intended for the Department of Education to rely on their audit opinions and statements. As a result, Doe Defendant Auditors caused the United States to pay Title IV, HEA program funds to Defendant Schools by such false and fraudulent compliance audit and financial statement audit opinions.

355. Doe Defendant Auditors were required to know every significant aspect of Defendant Schools' AC compensation practices under applicable audit standards and guidelines. Nevertheless, on information, Relators believe and allege that Doe Defendant Auditors either failed discover that Defendant Schools' AC compensation practices violated the Incentive Compensation Ban, even though they had a duty to discover such facts, or failed to disclose and make known to the Department of Education that Defendant Schools' AC compensation practices violated the Incentive Compensation Ban. Under either alternative, Doe Defendant Auditors facilitated Defendant Schools' violation of the Incentive Compensation Ban even though Doe Defendant Auditors were specifically responsible for detecting and disclosing to the Department of Education such violations.

356. On information, Relators believe and allege that Doe Defendant Auditors received substantial compensation for preparing the compliance audits and financial statement audit

opinions for Defendant Schools. On information, Relators believe and allege that Doe Defendant Auditors realized that if they made Defendant Schools' illegal compensation practices known to the Department of Education or even closely scrutinized such practices, as they were required to, they were likely to lose Defendant Schools' business and the substantial compensation they received from Defendant Schools.

357. On information, Relators believe and allege that each compliance audit and financial statement audit opinion issued by Doe Defendant Auditors expressly or impliedly stated that Doe Defendant Auditors had conducted their audit work in accordance with applicable standards and guidelines, even though Doe Defendant Auditors knew such certifications were false.

358. On information, Relators believe and allege that by issuing audit statements and opinions that failed to disclose that Defendant Schools' AC compensation practices violated the Incentive Compensation Ban, Doe Defendant Auditors facilitated the ongoing and long-term violation of the Incentive Compensation Ban by Defendant Schools. Defendant Schools were required to submit the audit reports from Doe Defendant Auditors each year in order to establish to the Department of Education that they had complied with all applicable rules and regulations, including the Incentive Compensation Ban, and that Defendant Schools would continue in compliance with such rules and regulations going forward. Had Doe Defendant Auditors disclosed Defendant Schools' violations of the Incentive Compensation Ban, the Department of Education and ACCSC would have taken action against Defendant Schools and prevented further violations of the Incentive Compensation Ban. By failing to disclose Defendant Schools' violations of the Incentive Compensation Ban, Doe Defendant Auditors compounded the

damages to the Department of Education by permitting Defendant Schools' to remain eligible for Title IV, HEA programs year after year.

VII. CLAIMS FOR RELIEF.

CLAIM I

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(1) (1986) -- False Claims Regarding Compliance With Title IV --

Against Defendant Schools and Doe Defendant Auditors)

359. Relators re-allege and incorporate herein paragraphs 1 through 358.

360. From July 1, 2002, to May 20, 2009, Defendants knowingly presented or caused to be presented false or fraudulent claims to the United States for payment, in violation of the FCA, 31 U.S.C. § 3729(a)(1).

361. Specifically, Defendant Schools knowingly submitted or caused to be submitted false certifications regarding compliance with the requirements of Title IV of the HEA, in, inter alia, their PPAs and annual financial and compliance audits, as well as in student loan and grant applications, in order to obtain eligibility to participate in Title IV, HEA programs and receive Title IV funding, when in fact, Defendant Schools' compensation practices did not comply with the Title IV of the HEA and its associated safe harbor regulations. In submitting or causing to be submitted such certifications and applications, Defendant Schools acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

362. Defendant Schools made express representations in writing to the Department of Education that they would not make incentive payments to their admissions personnel based directly or indirectly on their success in securing enrollments. These representations induced the Department of Education to make students at Defendant Schools eligible for many forms of financial aid under Title IV, HEA programs. These representations were material to the

Department of Education's decision to make Defendant Schools eligible for these financial aid programs. At the time Defendant Schools made these representations, they knew that these representations were false, and would continue to be false, because Defendant Schools were paying their admissions personnel incentive payments based on their success in securing enrollments. Therefore, Defendant Schools fraudulently induced the Department of Education to make Defendant Schools eligible to participate in the Title IV, HEA programs, and each and every one of the claims they submitted or caused a student to submit violated the FCA.

363. Even if Defendant Schools had not affirmed to the government that they would comply with the Incentive Compensation Ban, the mere fact that such compliance was material to the government's decision to make Defendant Schools eligible for Title IV, HEA programs, combined with the fact that Defendant Schools, knowing that they were in violation of the Incentive Compensation Ban and therefore ineligible to receive such student financial aid, submitted claims for student financial aid, caused students to submit claims for student financial, and/or received such aid, makes Defendant Schools liable under the FCA.

364. Defendant Barney established, directed, and controlled the policies, practices, and procedures of Defendant Schools, including policies, practices, and procedures relating to Defendant Schools' submission of materially false certifications and statements to the Department of Education concerning their purported compliance with the Incentive Compensation Ban and Defendant Schools' actual compensation practices, including the practices that violate the Incentive Compensation Ban. Even though Defendant Barney knew that such compensation practices violated the Incentive Compensation Ban, he directed or permitted Defendant Schools to expressly certify to the Department of Education that they were in compliance with the Incentive Compensation Ban and to represent to the Department of

Education that Defendant Schools would comply with the ban. As a result, Defendant Barney knowingly caused Defendant Schools' submission of false claims to the Department of Education.

365. Additionally, Defendant SHC expressly promised the Department of Education in writing that it would comply with all applicable regulations concerning attendance-taking, refunds of unearned Title IV funds, and requiring satisfactory academic progress of all students. Defendant SHC later expressly certified to the Department of Education that it had, in fact, complied with all such applicable regulations. However, at the time Defendant SHC made such promises, representations, and certifications to the Department of Education, it knew that such promises, representations, and certifications were materially false and that it did not intend to comply with such regulations. Defendant SHC therefore fraudulently induced the Department of Education to make SHC eligible to participate in the Title IV, HEA programs, and each and every one of the claims they submitted or caused a student to submit violated the FCA. Further, because Defendant SHC knew that compliance with such regulations was material to the Department of Education's decision to permit SHC and its students to participate in Title IV, Defendant SHC's knowledge that it was not in compliance with such regulations renders every request for Title IV funding that SHC and its students submitted false and fraudulent.

366. On information, Relators believe and allege that Doe Defendant Auditors made express or implied representations to the Department of Education that they performed their audits of Defendant Schools in accordance with applicable standards and guidelines. These representations induced the Department of Education to make students at Defendant Schools eligible for many forms of financial aid. These representations were material to the Department of Education's determination that Defendant Schools were eligible to participate in Title IV,

HEA programs. At the time Doe Defendant Auditors made these representations, they knew that these representations were false, and would continue to be false, because Doe Defendant Auditors did not perform the audit steps and procedures required under applicable standards and guidelines. Therefore, Doe Defendant Auditors fraudulently induced the Department of Education to make Defendant Schools eligible to participate in the Title IV, HEA programs, and each of the claims they submitted or caused a student to submit violated the FCA.

367. In submitting or causing to be submitted such claims, Defendants acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

368. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM II

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(1)(A) (2009) - False Claims Regarding Compliance With Title IV
-- Against Defendant Schools and Doe Defendant Auditors)

369. Relators re-allege and incorporate herein paragraphs 1 through 368.

370. From May 20, 2009 to the present, Defendants knowingly presented or caused to be presented false or fraudulent claims for payment to the United States, in violation of the FCA, 31 U.S.C. § 3729(a)(1)(A). Specifically, Defendant Schools knowingly submitted or caused to be submitted false certifications regarding compliance with the requirements of Title IV of the HEA, in, inter alia, their PPAs and annual financial and compliance audits, as well as in student loan and grant applications, in order to obtain eligibility to participate in Title IV, HEA programs and receive Title IV funding, when in fact, Defendant Schools' compensation practices did not comply with the Title IV of the HEA and its associated safe harbor regulations. In submitting or

causing to be submitted such certifications and applications, Defendant Schools acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

371. Defendant Schools made express representations in writing to the Department of Education that they would not make incentive payments to their admissions personnel based directly or indirectly on their success in securing enrollments. These representations induced the Department of Education to make students at Defendant Schools eligible for many forms of financial aid under Title IV, HEA programs. These representations were material to the Department of Education's decision to make Defendant Schools eligible for these financial aid programs. At the time Defendant Schools made these representations, they knew that these representations were false, and would continue to be false, because Defendant Schools were paying their admissions personnel incentive payments based on their success in securing enrollments. Therefore, Defendant Schools fraudulently induced the Department of Education to make Defendant Schools eligible to participate in the Title IV, HEA programs, and each and every one of the claims they submitted or caused a student to submit violated the FCA.

372. Even if Defendant Schools had not affirmed to the government that they would comply with the Incentive Compensation Ban, the mere fact that such compliance was material to the government's decision to make Defendant Schools eligible for Title IV, HEA programs, combined with the fact that Defendant Schools, knowing that they were in violation of the Incentive Compensation Ban and therefore ineligible to receive such student financial aid, submitted claims for student financial aid, caused students to submit claims for student financial, and/or received such aid, makes Defendant Schools liable under the FCA.

373. Defendant Barney established, directed, and controlled the policies, practices, and procedures of Defendant Schools, including policies, practices, and procedures relating to

Defendant Schools' submission of materially false certifications and statements to the Department of Education concerning their purported compliance with the Incentive Compensation Ban and Defendant Schools' actual compensation practices, including the practices that violate the Incentive Compensation Ban. Even though Defendant Barney knew that such compensation practices violated the Incentive Compensation Ban, he directed or permitted Defendant Schools to expressly certify to the Department of Education that they were in compliance with the Incentive Compensation Ban and to represent to the Department of Education that Defendant Schools would comply with the ban. As a result, Defendant Barney knowingly caused Defendant Schools' submission of false claims to the Department of Education.

374. Additionally, Defendant SHC expressly promised the Department of Education in writing that it would comply with all applicable regulations concerning attendance-taking, refunds of unearned Title IV funds, and requiring satisfactory academic progress of all students. Defendant SHC later expressly certified to the Department of Education that it had, in fact, complied with all such applicable regulations. However, at the time Defendant SHC made such promises, representations, and certifications to the Department of Education, it knew that such promises, representations, and certifications were materially false and that it did not intend to comply with such regulations. Defendant SHC therefore fraudulently induced the Department of Education to make SHC eligible to participate in the Title IV, HEA programs, and each and every one of the claims they submitted or caused a student to submit violated the FCA. Further, because Defendant SHC knew that compliance with such regulations was material to the Department of Education's decision to permit SHC and its students to participate in Title IV,

Defendant SHC's knowledge that it was not in compliance with such regulations renders every request for Title IV funding that SHC and its students submitted false and fraudulent.

375. On information, Relators believe and allege that Doe Defendant Auditors made express or implied representations to the Department of Education that they performed their audits of Defendant Schools in accordance with applicable standards and guidelines. These representations induced the Department of Education to make students at Defendant Schools eligible for many forms of financial aid. These representations were material to the Department of Education's determination that Defendant Schools were eligible to participate in Title IV, HEA programs. At the time Doe Defendant Auditors made these representations, they knew that these representations were false, and would continue to be false, because Doe Defendant Auditors did not perform the audit steps and procedures required under applicable standards and guidelines. Therefore, Doe Defendant Auditors fraudulently induced the Department of Education to make Defendant Schools eligible to participate in the Title IV, HEA programs, and each and every one of the claims they submitted or caused a student to submit violated the FCA.

376. In submitting or causing to be submitted such claims, Defendants acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

377. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM III

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(1) (1986) - False Claims Regarding Compliance With Accrediting Standards -- Against Defendant SHC)

378. Relators re-allege and incorporate herein paragraphs 1 through 377.

379. From July 1, 2002, to May 20, 2009, Defendant SHC knowingly presented or caused to be presented false or fraudulent claims for payment to the United States, in violation of the FCA, 31 U.S.C. § 3729(a)(1). Specifically, Defendant SHC knowingly submitted or caused to be submitted false certifications of accreditation by the ACCSC, Defendant SHC's accrediting agency. Defendant SHC knowingly provided false information to ACCSC, including false Faculty Personnel Reports, other false information about faculty qualifications, false information about attendance-taking practices, and false information about student academic performance practices, for the purpose of causing and inducing ACCSC to determine that Defendant SHC met ACCSC's minimum accrediting standards and was therefore eligible for accreditation when in fact Defendant SHC did not meet the minimum accrediting standards and was not eligible for accreditation. Defendant SHC knew that ACCSC would communicate such accreditation decision, which was based on false information, to the Department of Education and that the Department of Education would rely on the ACCSC's accreditation to determine that Defendant SHC was eligible to participate in Title IV, HEA programs. Defendant SHC knew that ACCSC's accreditation determination was (and is) material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs. Therefore, Defendant SHC knowingly caused ACCSC to fraudulently induce the Department of Education to make Defendant SHC eligible to participate in the Title IV, HEA programs, and each and every one of the claims Defendant SHC submitted or caused a student to submit violated the FCA.

380. Additionally, Defendant SHC knowingly submitted or caused to be submitted false certifications regarding compliance with the requirements of Title IV of the HEA, specifically the requirement that it meet the requirements established by a nationally recognized

accrediting agency, in its PPAs. Because Defendant SHC knew that it did not meet the requirements established by the ACCSC with respect to faculty qualifications, attendance, and academic performance, such certifications were knowingly false. Defendant SHC knew that its certifications regarding compliance with the accrediting standards were material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs. As a result, each and every one of the claims Defendant SHC submitted or caused a student to submit violated the FCA.

381. In submitting or causing to be submitted such claims, Defendant SHC acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

382. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM IV

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(1)(A) (2009) - False Claims Regarding Compliance With Accrediting Standards -- Against Defendant SHC)

383. Relators re-allege and incorporate herein paragraphs 1 through 382.

384. From May 20, 2009 to the present, Defendant SHC knowingly presented or caused to be presented false or fraudulent claims for payment to the United States, in violation of the FCA, 31 U.S.C. § 3729(a)(1)(A). Specifically, Defendant SHC knowingly submitted or caused to be submitted false certifications of accreditation by the ACCSC, Defendant SHC's accrediting agency. Defendant SHC knowingly provided false information to ACCSC, including false Faculty Personnel Reports, other false information about faculty qualifications, false information about attendance-taking practices, and false information about student academic performance practices, for the purpose of causing and inducing ACCSC to determine that

Defendant SHC met ACCSC's minimum accrediting standards and was therefore eligible for accreditation when in fact Defendant SHC did not meet the minimum accrediting standards and was not eligible for accreditation. Defendant SHC knew that ACCSC would communicate such accreditation decision, which was based on false information, to the Department of Education and that the Department of Education would rely on the ACCSC's accreditation to determine that Defendant SHC was eligible to participate in Title IV, HEA programs. Defendant SHC knew that ACCSC's accreditation determination was (and is) material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs. Therefore, Defendant SHC knowingly caused ACCSC to fraudulently induce the Department of Education to make Defendant SHC eligible to participate in the Title IV, HEA programs, and each and every one of the claims Defendant SHC submitted or caused a student to submit violated the FCA.

385. Additionally, Defendant SHC knowingly submitted or caused to be submitted false certifications regarding compliance with the requirements of Title IV of the HEA, specifically the requirement that it meet the requirements established by a nationally recognized accrediting agency, in its PPAs. Because Defendant SHC knew that it did not meet the requirements established by the ACCSC with respect to faculty qualifications, attendance, and academic performance, such certifications were knowingly false. Defendant SHC knew that its certifications regarding compliance with the accrediting standards were material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs. As a result, each and every one of the claims Defendant SHC submitted or caused a student to submit violated the FCA.

386. In submitting or causing to be submitted such claims, Defendant SHC acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

387. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM V

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(2) (1986) - False Statements and Records Regarding Compliance with Title IV -- Against Defendant Schools and Doe Defendant Auditors)

388. Relators re-allege and incorporate herein paragraphs 1 through 387.

389. From July 1, 2002, to May 20, 2009, Defendants knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims, in violation of 31 U.S.C. § 3729(a)(2). Specifically, Defendant Schools knowingly made, used, and caused to be made or used, false certifications regarding compliance with the requirements of Title IV of the HEA, in, inter alia, their PPAs and annual financial and compliance audits, as well as in student loan and grant applications, in order to obtain eligibility to participate in Title IV, HEA programs and to receive Title IV funding, when in fact, Defendant Schools' compensation practices did not comply with Title IV of the HEA and its associated safe harbor regulations.

390. Defendant Barney directed Defendant Schools' submission of materially false certifications and statements to the Department of Education concerning their purported compliance with the Incentive Compensation Ban and Defendant Schools' actual compensation practices, including the practices that violate the Incentive Compensation Ban. Even though Defendant Barney knew that such compensation practices violated the Incentive Compensation Ban, he directed or permitted Defendant Schools to expressly certify to the Department of

Education that they were in compliance with the Incentive Compensation Ban and to represent to the Department of Education that Defendant Schools would comply with the ban. As a result, Defendant Barney knowingly caused Defendant Schools' submission of false claims to the Department of Education.

391. Additionally, Defendant SHC expressly certified to the Department of Education that it was in compliance with all regulations relating to attendance-taking, refunds of unearned Title IV funds, and requiring satisfactory academic progress of all students. At the time Defendant SHC made such certifications to the Department of Education, it knew that such certifications were materially false and that it did not intend to and was not then in compliance with such regulations.

392. Doe Defendant Auditors knowingly made, used, and caused to be made or used, false certifications regarding Defendant Schools' compliance with the requirements of Title IV of the HEA in their annual audit reports for the purpose of inducing the Department of Education to make Defendant Schools eligible to participate in Title IV, HEA programs when in fact, Defendant Schools' compensation practices did not comply with Title IV of the HEA and its associated safe harbor regulations.

393. In making, using, or causing to be made or used such false records and statements, Defendants acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

394. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM VI

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(1)(B) (2009) - False Statements and Records Regarding Compliance with Title IV -- Against Defendant Schools and Doe Defendant Auditors)

395. Relators re-allege and incorporate herein paragraphs 1 through 394.

396. From May 20, 2009 to the present, Defendants knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims, in violation of 31 U.S.C. § 3729(a)(1)(B). Specifically, Defendant Schools knowingly made, used, and caused to be made or used, false certifications regarding compliance with the requirements of Title IV of the HEA, in, inter alia, their PPAs and annual financial and compliance audits, as well as in student loan and grant applications, in order to obtain eligibility to participate in Title IV, HEA programs and to receive Title IV funding, when in fact, Defendant Schools' compensation practices did not comply with Title IV of the HEA and its associated safe harbor regulations.

397. Defendant Barney directed Defendant Schools' submission of materially false certifications and statements to the Department of Education concerning their purported compliance with the Incentive Compensation Ban and Defendant Schools' actual compensation practices, including the practices that violate the Incentive Compensation Ban. Even though Defendant Barney knew that such compensation practices violated the Incentive Compensation Ban, he directed or permitted Defendant Schools to expressly certify to the Department of Education that they were in compliance with the Incentive Compensation Ban and to represent to the Department of Education that Defendant Schools would comply with the ban. As a result, Defendant Barney knowingly caused Defendant Schools' submission of false claims to the Department of Education.

398. Additionally, Defendant SHC expressly certified to the Department of Education that it was in compliance with all regulations relating to attendance-taking, refunds of unearned Title IV funds, and requiring satisfactory academic progress of all students. At the time Defendant SHC made such certifications to the Department of Education, it knew that such certifications were materially false and that it did not intend to and was not then in compliance with such regulations.

399. Doe Defendant Auditors knowingly made, used, and caused to be made or used, false certifications regarding Defendant Schools' compliance with the requirements of Title IV of the HEA in their annual audit reports for the purpose of inducing the Department of Education to make Defendant Schools eligible to participate in Title IV, HEA programs when in fact, Defendant Schools' compensation practices did not comply with Title IV of the HEA and its associated safe harbor regulations.

400. In making, using, or causing to be made or used such false records and statements, Defendants acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

401. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM VII

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(2) (1986) - False Statements and Records Regarding Compliance
With Accrediting Standards -- Against Defendant SHC)

402. Relators re-allege and incorporate herein paragraphs 1 through 401.

403. From July 1, 2002, to May 20, 2009, Defendant SHC knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims, in

violation of 31 U.S.C. § 3729(a)(2). Specifically, Defendant SHC prepared and caused the preparation of false reports to the ACCSC regarding the qualifications of Defendant SHC's faculty. On information, Relators believe and allege that ACCSC relied on these false reports about faculty qualifications when it determined to accredit Defendant SHC. Defendant SHC knew that ACCSC would consult these false reports to make its accreditation decision and that ACCSC would communicate its accreditation decision based on these false reports to the Department of Education. Defendant SHC also knew that the ACCSC's accreditation was a condition to Defendant SHC's eligibility to participate in Title IV, HEA programs and that the ACCSC's accreditation was material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs.

404. Additionally, Defendant SHC knowingly submitted or caused to be submitted false records or statements regarding compliance with the requirements of Title IV of the HEA, specifically the requirement that it meet the requirements established by a nationally recognized accrediting agency, in its PPAs. Because Defendant SHC knew that it did not meet the requirements established by the ACCSC with respect to faculty qualifications, such certifications were knowingly false. Defendant SHC knew that its certifications regarding compliance with the accrediting standards were material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs. As a result, each and every one of the claims Defendant SHC submitted or caused a student to submit violated the FCA.

405. In making, using, or causing to be made or used such false statements or records, Defendant SHC acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

406. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

CLAIM VIII

VIOLATIONS OF THE FEDERAL FALSE CLAIMS ACT

(31 U.S.C. § 3729(a)(1)(B) (2009) - False Statements and Records Regarding Compliance With Accrediting Standards -- Against Defendant SHC)

407. Relators re-allege and incorporate herein paragraphs 1 through 406.

408. From May 20, 2009 to the present, Defendant SHC knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims, in violation of 31 U.S.C. § 3729(a)(1)(B). Specifically, Defendant SHC prepared and caused the preparation of false reports to the ACCSC regarding the qualifications of Defendant SHC's faculty. On information, Relators believe and allege that ACCSC relied on these false reports about faculty qualifications when it determined to accredit Defendant SHC. Defendant SHC knew that ACCSC would consult these false reports to make its accreditation decision and that ACCSC would communicate its accreditation decision based on these false reports to the Department of Education. Defendant SHC also knew that the ACCSC's accreditation was a condition to Defendant SHC's eligibility to participate in Title IV, HEA programs and that the ACCSC's accreditation was material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs.

409. Additionally, Defendant SHC knowingly submitted or caused to be submitted false records or statements regarding compliance with the requirements of Title IV of the HEA, specifically the requirement that it meet the requirements established by a nationally recognized accrediting agency, in its PPAs. Because Defendant SHC knew that it did not meet the requirements established by the ACCSC with respect to faculty qualifications, such certifications

were knowingly false. Defendant SHC knew that its certifications regarding compliance with the accrediting standards were material to the Department of Education's decision to make Defendant SHC eligible to participate in Title IV, HEA programs. As a result, each and every one of the claims Defendant SHC submitted or caused a student to submit violated the FCA.

410. In making, using, or causing to be made or used such false statements or records, Defendants SHC acted with actual knowledge, reckless disregard, or deliberate ignorance of the truth or falsity of the claims.

411. By virtue of these false or fraudulent claims, the United States suffered damages in an amount to be determined at trial.

VIII. PRAYERS FOR RELIEF

WHEREFORE, Relators, on behalf of themselves and the United States, demand and pray that judgment be entered in their favor against Defendants, as follows:

1. On Claims I through VIII under the FCA, as amended, for triple the amount of the United States' damages plus interest and such civil penalties as are allowable by law, together with the costs of this action and such other and further relief as may be just and proper;

2. That judgment be entered in favor of Relators and the United States and against the Defendants for actual damages, pre-judgment and post-judgment interest, litigation costs, investigative costs, disgorgement of all profits, an accounting, to the fullest extent as allowed by law, and for such further relief as may be just and proper;

3. That Relators be awarded all reasonable attorneys' fees and costs, pursuant to 31 U.S.C. § 3730;

4. That in the event the United States Government intervenes in this action, the Relators be awarded an amount for bringing this action of at least 15% but not more than 25% of the proceeds of any award or the settlement of the claims; and

5. That in the event that the United States Government does not intervene in this action, the Relators be awarded an amount that the Court decides is reasonable, which is not less than 25% nor more than 30% of the proceeds of any award or settlement.

IX. JURY TRIAL DEMAND

1. Pursuant to Rule 38 of the Federal Rules of Civil Procedure, Relators demand a jury trial.

DATED this 27th day of September 2013.
