AMENDMENT IN THE NATURE OF A SUBSTITUTE
TO H.R. 1631
OFFERED BY MR. ISSA OF CALIFORNIA

Strike all after the enacting clause and insert the following:

1 SECTION 1. SHORT TITLE.

This Act may be cited as the “Protecting and Enhancing Public Access to Codes Act” or the “Pro Codes Act”.

2 SEC. 2. FINDINGS.

Congress finds the following:

(1) Congress, the executive branch, and State and local governments have long recognized that the people of the United States benefit greatly from the work of private standards development organizations with expertise in highly specialized areas.

(2) The organizations described in paragraph (1) create technical standards and voluntary consensus standards through a process requiring openness, balance, consensus, and due process to ensure all interested parties have an opportunity to participate in standards development.
(3) The standards that result from the process described in paragraph (2) are used by private industry, academia, the Federal Government, and State and local governments that incorporate those standards by reference into laws and regulations.

(4) The standards described in paragraph (3) further innovation, commerce, and public safety, all without cost to governments or taxpayers because standards development organizations fund the process described in paragraph (2) through the sale and licensing of their standards.

(5) Congress and the executive branch have repeatedly declared that, wherever possible, governments should rely on voluntary consensus standards and have set forth policies and procedures by which those standards are incorporated by reference into laws and regulations and that balance the interests of access with protection for copyright.

(6) Circular A–119 of the Office of Management and Budget entitled “Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities”, issued in revised form on January 27, 2016, recognizes the benefits of voluntary consensus standards and incorporation by reference, stating that
“If a standard is used and published in an agency document, your agency must observe and protect the rights of the copyright holder and meet any other similar obligations.”.

(7) Federal agencies have relied extensively on the incorporation by reference system to leverage the value of technical standards and voluntary consensus standards for the benefit of the public, resulting in more than 23,000 sections in the Code of Federal Regulations that incorporate by reference technical and voluntary consensus standards.

(8) State and local governments have also recognized that technical standards and voluntary consensus standards are critical to protecting public health and safety, which has resulted in many such governments—

(A) incorporating those standards by reference into their laws and regulations; or

(B) entering into license agreements with standards development organizations to use the standards created by those organizations.

(9) Standards development organizations rely on copyright protection to generate the revenues necessary to fund the voluntary consensus process
and to continue creating and updating these important standards.

(10) The people of the United States have a strong interest in—

(A) ensuring that standards development organizations continue to utilize a voluntary consensus process—

(i) in which all interested parties can participate; and

(ii) that continues to create and update standards in a timely manner to—

(I) account for technological advances;

(II) address new threats to public health and safety; and

(III) improve the usefulness of those standards; and

(B) the provision of access that allows people to read technical and voluntary consensus standards that are incorporated by reference into laws and regulations.

(11) As of the date of enactment of this Act, many standards development organizations make their standards available to the public free of charge online in a manner that does not substantially dis-
rupt the ability of those organizations to earn revenue from the industries and professionals that purchase copies and subscription-access to those standards (such as through read-only access), which ensures that the public may read the current, accurate version of such a standard without significantly interfering with the revenue model that has long supported those organizations and their creation of, and investment in, new standards.

(12) Through this Act, and the amendments made by this Act, Congress intends to balance the goals of furthering the creation of standards and ensuring public access to standards that are incorporated by reference into law or regulation.

SEC. 3. WORKS INCORPORATED BY REFERENCE INTO LAW.

(a) In General.—Chapter 1 of title 17, United States Code, is amended by adding at the end the following:

“§ 123. Works incorporated by reference into law

“(a) Definitions.—In this section:

Standards and in Conformity Assessment Activities’,
issued in revised form on January 27, 2016.

“(2) INCORPORATED BY REFERENCE.—

“(A) IN GENERAL.—The term ‘incor-
porated by reference’ means, with respect to a
standard, that the text of a Federal, State,
local, or municipal law or regulation—

“(i) references all or part of the
standard; and

“(ii) does not copy the text of that
standard directly into that law or regula-

“(B) APPLICATION.—The creation or pub-
lication of a work that includes both the text of
a law or regulation and all or part of a stand-
ard that has been incorporated by reference, as
described in subparagraph (A), shall not affect
the status of the standard as incorporated by
reference under that subparagraph.

“(3) STANDARD.—The term ‘standard’ means a
standard or code that is—

“(A) a technical standard, as that term is
defined in section 12(d) of the National Tech-
nology Transfer and Advancement Act of 1995
(15 U.S.C. 272 note); or
“(B) a voluntary consensus standard, as that term is used for the purposes of Circular A–119.

“(4) STANDARDS DEVELOPMENT ORGANIZATION.—The term ‘standards development organization’ means a holder of a copyright under this title that plans, develops, establishes, or coordinates voluntary consensus standards using procedures that incorporate the attributes of openness, balance of interests, due process, an appeals process, and consensus in a manner consistent with the requirements of Circular A–119.

“(5) PUBLICLY ACCESSIBLE ONLINE.—

“(A) IN GENERAL.—The term ‘publicly accessible online’, with respect to material, means that the material is displayed for review in a readily accessible manner on a public website.

“(B) RULE OF CONSTRUCTION.—If a user is required to create an account or agree to the terms of service of a website or organization in order to access material online, that requirement shall not be construed to render the material not publicly accessible online for the purposes of subparagraph (A), if there is no monetary cost to the user to access that material.
“(b) STANDARDS INCORPORATED BY REFERENCE INTO LAW OR REGULATION.—A standard to which copyright protection subsists under section 102(a) at the time of its fixation shall retain such protection, notwithstanding that the standard is incorporated by reference, if the applicable standards development organization, within a reasonable period of time after obtaining actual or constructive notice that the standard has been incorporated by reference, makes all portions of the standard so incorporated publicly accessible online at no monetary cost and in a format that includes a searchable table of contents and index, or equivalent aids to facilitate the location of specific content.

“(c) BURDEN OF PROOF.—In any proceeding in which a party asserts that a standards development organization has failed to comply with the requirements under subsection (b) for retaining copyright protection with respect to a standard, the burden of proof shall be on the party making that assertion to prove that the standards development organization has failed to comply with those requirements.”.

(b) TECHNICAL AND CONFORMING AMENDMENT.—The table of sections for chapter 1 of title 17, United
States Code, is amended by adding at the end the following:

“123. Works incorporated by reference into law.”.
